Subject index*

A

Acetylstrophanthidin, effects of, on the response of the AV junction to adrenergic stimulation studied in dogs (Porlier et al.), 475
Adrenergic beta blockade and ECG changes in systolic click murmur syndrome (Abinader), 297
Alcoholics, chronic, preclinical cardiomyopathy in, a sex difference, (Wu), 281
Alcoholism, chronic, cardiac conduction abnormalities produced by (Ettinger et al.), 66
Alpha-adrenergic receptor-mediated coronary artery spasm, Prinzmetal's variant form of angina as a manifestation of: documentation by coronary arteriography (Yasue et al.), 148
Alterations in human heart mitochondria, incidence of intermembrane: preliminary ultrastructural study (Smith and Klima), 563
Amphetamine administration, cardiomyopathy associated with (Smith et al.), 792
Anatomical and electrophysiological study of human fetal heart, combined (Janse et al.), 556
Aneurysms of membraneous septum, radiologic patterns of (Hoeffel et al.), 450
Angina, Prinzmetal's variant form of, as a manifestation of alpha-adrenergic receptor-mediated coronary artery spasm: documentation by coronary arteriography (Yasue et al.), 148
Angiographic, vectorcardiographic, and electrocardiographic correlations in apparently isolated inferior wall myocardial infarction (Mehta et al.), 699
Announcements, 137, 274, 408, 544, 682, 830
Aortic ball valve prostheses, Starr-Edwards, arterial thromboembolic complications in patients with (Dale), 653
  valve, Björk-Shiley, diagnosis of, dysfunction by echocardiography (Chandraratna et al.), 318
    closure, echocardiographic, phonocardiographic, and hemodynamic assessment (Anastassiades et al.), 228
    replacement, long-term survival following (Roberts et al.), 311
Arrhythmias, long-term treatment of ventricular, with oral mexiletine (Talbot, Julian, and Prescott), 58
Arteriography, coronary, coronary artery spasm as cause of myocardial infarction during (Engel, Page, and Campbell), 501
    documentation by: Prinzmetal's variant form of angina as a manifestation of alpha-adrenergic receptor-mediated coronary artery spasm (Yasue et al.), 148
    effects of, on atrioventricular conduction, studies with His bundle electrography (Abe et al.), 203
Apexcardiogram, systolic upstroke of and internal indexes of myocardial function in man, relationship between duration of (Manolas, Wirz, and Rutishauser), 726
Arterial injections, sinus slowing produced by intracoronary, of hyperosmotic solutions in man (Abe et al.), 339
  thrombi, coronary, in relation to onset of necrosis in acute myocardial infarction in man, formation of; clinical and autoradiographic study (Erhardt, Unge, and Boman), 592
  thromboembolic complications in patients with Starr-Edwards aortic ball valve prostheses (Dale), 653
Artery (arteries) disease, coronary, patients with, comparison of selective left ventriculograms with levophase ("forward") ventriculograms in (Ferlinz et al.), 721
Artery (arteries)—continued
  spasm, coronary, alpha-adrenergic receptor-mediated, Prinzmetal's variant form of angina as a manifestation of: documentation by coronary arteriography (Yasue et al.), 148
  transposition of great, infants with, percutaneous balloon atrial septostomy in (Hurwitz and Girod), 618
Aspirin and myocardial infarction (Jick and Elwood), 126 (Annot.)
Atrial ball thrombus, left, mitral stenosis and: "Hole-in-one" sudden death (Lie and Entman), 798 (Clinical Pathologic Conference)
  fibrillation in dog, systolic time intervals in induced (Knudson and Amend), 358
  gradient and atrial T(Ta) wave in patients with A-V block (Hayashi, Okajima, and Yamada), 689
  infarction, of the P-R segment depression and (Burch), 129 (Annot.)
  injury, atrial T(Ta) loop in dogs with or without (Hayashi, Okajima, and Yamada), 607
  septal defect, changes in heart dipole moment after surgical correction of (Nelson, Dowling, and Sloman), 766
    clinical study on the flow murmurs at the defect area of, by means of intracardiac phonocardiography (Kambe et al.), 35
    ostium secundum, development of mitral insufficiency following closure of (Ben-Zvi, Hildner, and Samet), 83
  septostomy, balloon, percutaneous, in infants with transposition of the great arteries (Hurwitz and Girod), 618
  T(Ta) loop in dogs with or without atrial injury (Hayashi, Okajima, and Yamada), 607
    loop in patients with A-V block: a trial to differentiate normal and abnormal groups (Hayashi, Okajima, and Yamada) 492
    wave and atrial gradient in patients with A-V block (Hayashi, Okajima, and Yamada), 689
Atrioventricular (A-V) association, cannon waves with (Berman and Waxman), 643
  block, atrial T(Ta) loop in patients with: a trial to differentiate normal and abnormal groups (Hayashi, Okajima, and Yamada), 492
    on left ventricular blood velocity in man, influence of pacemaker-induced tachycardia with (Benchimol et al.), 178
    patients with, Atrial T(Ta) wave and atrial gradient in (Hayashi, Okajima, and Yamada), 689
  conduction, effects of coronary arteriography on, studies with His bundle electrography (Abe et al.), 203
    patterns in patients with paroxysmal supraventricular tachycardia (Bissett et al.), 287
  junction, response of, to adrenergic stimulation studied in dogs, effects of acetylstrophanthidin on (Porlier et al.), 475
  nodal reciprocation, facilitation of, by procainamide (Fabregas et al.), 460
Atropine, improved sinus node sensing after (Bissett et al.), 752
Autoauscultation in a patient with floppy mitral valve syndrome, (Segall), 269 (Letter to Editor)
Axis deviation, left (Clement), 824 (Letter to Editor)

B

Bacterial endocarditis in IHSS (Katholi and Levitin), 131 (Letter to Editor)

*January, pp. 1-138; February, pp. 139-274; March, pp. 275-408; April, pp. 409-544; May, pp. 545-682; June, pp. 683-846.

Ball thrombus, left atrial, mitral stenosis and: "Hole-in-one" sudden death (Lie and Entman), 798 (Clinical Pathologic Conference)
valve prostheses, aortic, Starr-Edwards, arterial thromboembolic complications in patients with (Dale), 653
Balloon atrial septostomy, percutaneous, in infants with transposition of the great arteries (Hurwitz and Girod), 618
Beta-adrenergic blockade in hypertensive patients, mechanism of hypotensive effect during; hemodynamic and renin response to a new cardioselective agent, Tenormin or ICI 66,082 (Amery et al.), 634
receptor blockade and renal function (Warren), 265 (Annot.)
blockade, adrenergic, and ECG changes in systolic click murmur syndrome (Abinader), 297
and coronary circulation (Frick and Virtanen), 536 (Annot.)
Bioptome, endomyocardial, diagnostic value of (Olsen), 398 (Annot.)
Björk-Shiley aortic valve, diagnosis of, dysfunction by echocardiography (Chandraratna et al.), 318
Block, A-V, patients with, atrial T(Ta) wave and atrial gradient in (Hayashi, Okajima, and Yamada), 689
heart, chronic, established, complete, remission and recovery from (Rytand, Stinson, and Kelly), 645
Blockade, beta-adrenergic, in hypertensive patients, mechanisms of hypotensive effect during; hemodynamic and renin response to a new cardioselective agent, Tenormin or ICI 66,082 (Amery et al.), 634
Blood oxygen content, measurement of (Adams and Cole), 678 (Letter to Editor)
pressure, measurement of, automated three-phase, Korotkoff sound filtering for (Maurer and Noordergraaf), 584
Book reviews, 135, 273, 407, 542, 680, 828
Books received, 136, 274, 408, 543, 681, 829
Bundle electrocardiography, His, clinical uses of. Part I (Akhtar and Damato), 520
Part II (Akhtar, Damato, and Caracta), 660
Part III (Akhtar et al.), 805
Bypass, cardiopulmonary, residual effects when chronic propranolol therapy is discontinued within 48 hours of (Tyers and Hughes), 757

C

Calculator, pocket, indicator dilution flows and transit times with a (Parker and Pearce), 826 (Letter to Editor)
Canine ECG and electrophysiologic properties of Purkinje fibers, effects of lidocaine on (Rosen, Merker, and Pippenger), 191
Cannon waves with A-V association (Berman and Waxman), 643
Cardiac output, initial adjustment of, in response to onset of exercise in patients with chronic pacemaking as studied by the measurement of pulmonary blood flow (Koyama, Nakajima, and Horimoto), 457
refractory periods in denervated human heart, effect of cycle length on (Goodman et al.), 332
status, association between clinical, laboratory parameters, and digoxin usage (Huffman et al.), 28
Cardiogenic shock, myocardial depressant factor in (Hosono and Okuda), 126 (Annot.)
Cardiomyopathy and URI (Burch), 538 (Annot.)
associated with amphetamine administration (Smith et al.), 792
preclinical, in chronic alcoholics: a sex difference (Wu et al.), 281
Cardiopulmonary bypass, residual effects when chronic propranolol therapy is discontinued within 48 hours of (Tyers and Hughes), 757
Cardiopulmonary—continued
resuscitation, mechanics of widespread training of, community project implemented by volunteers (Flax et al.), 123
Cardioselective agent, Tenormin or ICI 66,082, hemodynamic and renin response to a new; mechanism of hypotensive effect during beta-adrenergic blockade in hypertensive patients (Amery et al.), 634
Carditis, acute rheumatic, electroencephalographic study in (Ertugrul et al.), 163
rheumatic, isolated, observations on diagnosis of (Ward), 545
Care units, coronary (Lindholm et al.), 673 (Annot.)
Catecholamines in essential hypertension (Mendlowitz and Vlachakis), 378
Chart, standard hospital, of a (Burch), 822 (Annot.)
Chemical incompatibility of Renografin 76 and protamine sulfate (Martin and Taylor), 675 (Annot.)
Chronic, established, complete heart block, remission and recovery from (Rytand, Stinson, and Kelly), 645
intractable congestive heart failure, "new" treatment for (Burch, León-Galindo, and Cronvich), 735
Cineangiography, coronary, in young males with myocardial infarction, clinical correlates of (Savran et al.), 551
Circulation, peripheral, in borderline hypertension (Wallace), 268 (Letter to Editor)
Click murmur syndrome, systolic, adrenergic beta blockade and ECG changes in (Abinader), 297
Clinical correlates of coronary cineangiography in young males with myocardial infarction (Savran et al.), 551
pathologic conference (Chernausek et al.), 249
(Shrivastava et al.), 513
(Lie and Entman), 798
uses of His bundle electrocardiography. Part I (Akhtar and Damato), 520
Part II (Akhtar, Damato, and Caracta), 660
Part III (Akhtar et al.), 805
value of plasma renin determinations in renovascular and primary hypertension (Page), 665
Commentary on hypertension (Sacks), 678 (Letter to Editor)
Commercial defibrillators, revisited, energy levels of (Geddes and Tacker), 678 (Letter to Editor)
Reply (Fazzini, Marchi, and Torrini), 678
Complete heart block, chronic, established, remission and recovery from (Rytand, Stinson, and Kelly), 645
Complications, arterial thromboembolic, in patients with Starr-Edwards aortic ball valve prostheses (Dale), 653
Conduction abnormalities, cardiac, produced by chronic alcoholism (Ettinger et al.), 66
myocardial, in the human heart, effects of smoking on (Bekheit and Fletcher), 712
patterns, atrioventricular, in patients with paroxysmal supraventricular tachycardia (Bissett et al.), 287
Congestive heart failure, chronic intractable, "new" treatment for (Burch, León-Galindo, and Cronvich), 735
Coronary arterial thrombi in relation to onset of necrosis in acute myocardial infarction in man, formation of; clinical and autoradiographic study (Erhardt, Unge, and Boman), 592
arteriography, documentation by: Prinzmetal's variant form of angina as a manifestation of alpha-adrenergic receptor-mediated coronary artery spasm (Yasue et al.), 148
effects of, on atrioventricular conduction, studies with His bundle electrography (Abe et al.), 203
artery bypass surgery, follow-up catheterization of patients with myocardial infarction during (Fruehan et al.), 186
disease, correlation of heart size with clinical and hemodynamic findings in patients with, (Aintablian et al.), 21
patients with, comparison of selective left ventriculograms with levophase ("forward") ventriculograms in (Ferlinz et al.), 721

Coronary artery—continued
spasm, alpha-adrenergic receptor-mediated, Prinzmetal's variant form of angina as a manifestation of: documentation by coronary arteriography (Yasue et al.), 148
as cause of myocardial infarction during coronary arteriography (Engel, Page, and Campbell), 501
stenoses, localization of, by 12-lead ECG response to graded exercise test, support for intercoronary steal (Robertson, Kostuk, and Ahuja), 437
care units (Colling, Dellipiani, and McCormack), 537 (Annot.)
(Lindholm et al.), 673 (Annot.)
cineangiography in young males with myocardial infarction, clinical correlates of (Savran et al.), 551
circulation and beta blockade (Frick and Virtanen), 536 (Annot.)
heart disease, cardiologist's responsibility for preventing (Turner and Ball), 139
risk factors and, facts or fancy (Werkö), 87
thrombosis: facts and beliefs (Baroldi), 683
Cyanosis, increased, in VSD with outflow tract obstruction (Guntheroth), 494

D

Death, sudden, and acute myocardial infarction, what are we talking about (Grace), 1
following intravenous sodium diphenylhydantoin (Zoneraich, Zoneraich, and Siegel), 375
"Hole-in-one": mitral stenosis and left atrial ball thrombus (Lie and Entman), 798 (Clinical Pathologic Conference)
in sexual activity (Natbantgil, Yiğitbaşi, and Kiliççioğlu), 405 (Letter to Editor)
Defibrillation, transchest electrical ventricular (Ewy and Tacker), 403
Defibrillators, commercial, energy levels of, revisited (Geddes and Tacker), 678 (Letter to Editor)
Reply (Fazzini, Marchi, and Torrini), 678
Depression, P-R segment, and atrial infarction, of the (Burch), 129 (Annot.)
Deviation, left axis (Clement), 824 (Letter to Editor)
Diazepam in patients with elevated left ventricular filling pressure, therapeutic implications of (Côte, Campeau, and Bourassa), 747
Digoxin, intravenous, effect of on occurrence of ventricular tachyarrhythmias in acute myocardial infarction in man (Reicansky et al.), 705
usage, association between clinical cardiac status, laboratory parameters, and (Huffman et al.), 28
Dilution flows, indicator, and transit times with a pocket calculator (Parker and Pearce), 826 (Letter to Editor)
Dipole moment, heart, changes in, after surgical correction of atrial septal defect (Nelson, Dowling, and Sloman), 766
Dogs, systolic time intervals in induced atrial fibrillation in (Knudson and Amend), 358
effects of acetylstrophanthidin on response of AV junction to adrenergic stimulation studied in (Porlier et al.), 475
with or without atrial injury, atrial T(Ta) loop in (Hayashi, Okajima, and Yamada), 607
Dopamine effects on the intestinal circulation (Pawlik et al.), 325
Drugs in the management of hypertension. Part I (Page, Yager, and Sidd), 810
Dual conduction pathways, reciprocal rhythm in patients with normal electrocardiogram, evidence for (Touboul et al.), 3
Dynamic nature of the ST-T segment in ischemic heart disease (Stern and Tzivoni), 820 (Annot.)

E

ECG recordings, Holter, interpretation of findings using (Kennedy), 824 (Letter to Editor)
ECG—continued
telemetry, inexpensive receiver for (Uhley), 346
Effusion, pericardial, abnormal motion of the mitral valve with, pseudo-prolapse of the mitral valve (Levison and Abbasi), 18
Ejection, rate of change of ventricular power: an indicator of ventricular performance during (Stein and Sabbah), 219
ventricular performance measured during; studies in patients of the rate of change of ventricular power (Stein and Sabbah), 599
Electrocardiogram, normal, reciprocal rhythm in patients with, evidence for dual conduction pathways (Touboul et al.), 3
Electrocardiographic Holter recordings, two-channel, practical advantages of (Kennedy, Underhill, and Warbasse), 822 (Annot.)
monitoring, portable, artifacts in (Krasnow and Bloomfield), 349
vectorcardiographic, and angiographic correlations in apparently isolated inferior wall myocardial infarction (Mehta et al.), 699
Electrocardiography, His bundle, clinical uses of. Part I (Akhtar and Damato), 520
Part II (Akhtar, Damato, and Caracta), 660
Part III (Akhtar et al.), 805
some quantitative estimates of inhomogeneity effects in (Rush and Baldwin), 623
Electrode, self-anchoring, for implantable pacemakers (Fiandra et al.), 468
Electrography, His bundle, studies with, effects of coronary arteriography on atrioventricular conduction (Abe et al.), 203
Electrophysiological and anatomical study of human fetal heart, combined (Janse et al.), 556
Embolism, massive pulmonary, role of pulmonary embolectomy (Paneth and Miller), 133 (Letter to Editor)
Encephalopathy, a renewed look at hypertensive (Rosenblum), 264 (Annot.)
Endocardial cushion defect, echocardiographic analysis of intracardiac anatomy in (Komatsu et al.), 210
Endocarditis, bacterial, in IHSS (Katholi and Levitin), 131 (Letter to Editor)
Endomyocardial bioptome, diagnostic value of (Olsen), 398 (Annot.)
Energy levels of commercial defibrillators revisited (Geddes and Tacker), 678 (Letter to Editor)
Reply (Fazzini, Marchi, and Torrini), 678
Estimates of inhomogeneity effects in electrocardiography, some quantitative (Rush and Baldwin), 623
Exercise, importance of lead strength in ST changes produced by (Santinga), 403

F

Failure, heart, chronic intractable congestive, "new" treatment for (Burch, León-Galindo, and Cronvich), 735
Fetal heart, human, combined electrophysiological and anatomical study of (Janse et al.), 556
Fibrillation, ventricular, and unconsciousness, attacks of, in a patient with prolonged QT interval. A family study (Chaudron et al.), 783
Filling pressure, elevated left ventricular, therapeutic implications of diazepam in patients with (Côte, Campeau, and Bourassa), 747
Filtering, Korotkoff sound, for automated three-phase measurement of blood pressure (Maurer and Noordergraaf), 584
Floppy mitral whistle heard across the room (Lababidi), 825 (Letter to Editor)
Flow murmurs, clinical study on the, at the defect area of atrial-septal defect by means of intracardiac phonocardiography (Kambe et al.), 35
indicator dilution, and transit times with a pocket calculator (Parker and Pearce), 826 (Letter to Editor)
Function, left ventricular, relative insensitivity of isovolumic phase indices in assessment of (Naqvi et al.), 577

G

Gradient, atrial, and atrial T(Ta) wave in patients with A-V block (Hayashi, Okajima, and Yamada), 689
Great arteries, transposition of, infants with, percutaneous balloon atrial septostomy in (Hurwitz and Girod), 618

H

Heart block, chronic, established, complete, remission and recovery from (Rytand, Stinson, and Kelly), 645
progressive improvement of His-Purkinje conduction during recovery from catheter-induced (Levites, Toor, and Haft), 79
sinoatrial, first-degree, sinoatrial block in the sick sinus syndrome (Engel et al.), 303
dipole moment, changes in, after surgical correction of atrial septal defect (Nelson, Dowling, and Sloman), 766
disease, ischemic, changes in transthoracic electrical impedance during submaximal treadmill exercise, in patients with, a preliminary report (Balasubramanian and Hoon), 43
dynamic nature of ST-T segment in (Stern and Tzivoni), 820 (Annot.)
possible reasons for comparatively high resistance of women to (Seely), 275
failure, chronic intractable congestive, "new" treatment for (Burch, León-Galindo, and Cronvich), 735
human, effects of smoking on myocardial conduction in the (Bekheit and Fletcher), 712
fetal, combined electrophysiological and anatomical study of (Janse et al.), 556
mitochondria, human, incidence of intermembrane alterations in: preliminary ultrastructural study (Smith and Klima), 563
size, correlation of, with clinical and hemodynamic findings in patients with coronary artery disease (Aintablian et al.), 21
Hemodynamic and renin response to a new cardioselective agent, Tenormin or ICI 66,082; mechanism of hypotensive effect during beta-adrenergic blockade in hypertensive patients (Amery et al.), 634
His bundle electrocardiography, clinical uses of. Part I (Akhtar and Damato), 520
Part II (Akhtar, Damato, and Caracta), 660
Part III (Akhtar et al.), 805
electrography, studies with, effects of coronary arteriography on atrioventricular conduction (Abe et al.), 203
His-Purkinje conduction during recovery from catheter-induced heart block, progressive improvement of (Levites, Toor, and Haft), 79
"Hole-in-one" sudden death: mitral stenosis and left atrial ball thrombus (Lie and Entman), 798 (Clinical Pathologic Conference)
Holter ECG recordings, interpretation of findings using (Kennedy), 824 (Letter to Editor)
recordings, practical advantages of two-channel electrocardiographic (Kennedy, Underhill, and Warbasse), 822 (Annot.)
scan, what constitutes a (Bleifer), 264 (Annot.)
Hormone, myocardial hypertrophy, norepinephrine (Laks and Morady), 674 (Annot.)
Hospital chart, standard, of a (Burch), 822 (Annot.)
safety, prerequisite for: instrumentation performance testing (Shaffer, Rios, and Klingenmaier), 819 (Annot.)
Human fetal heart, combined electrophysiological and anatomical study of (Janse et al.), 556
heart mitochondria, incidence of intermembrane alterations in: preliminary ultrastructural study (Smith and Klima), 563
Hypertension, a commentary on (Sacks), 678 (Letter to Editor)
borderline, and norepinephrine (Kessler), 268 (Letter to Editor)
Hypertension—continued
drugs in the management of. Part I (Page, Yager, and Sidd), 810
epidemiologic evidence on the etiology of human, and its possible prevention (Page), 527
essential, catecholamines in (Mendlowitz and Vlachakis), 378
peripheral circulation in borderline (Wallace), 268 (Letter to Editor)
renovascular and primary, clinical value of plasma renin determinations in (Page), 665
Hypertensive patients, mechanism of hypotensive effect during beta-adrenergic blockade in; hemodynamic and renin response to a new cardioselective agent, Tenormin or ICI 66,082 (Amery et al.), 634
Hypertrophy hormone, norepinephrine, the myocardial (Laks and Morady), 674 (Annot.)
left ventricular, high reliability rates of spatial pattern analysis by vectorcardiogram in assessing the severity of eccentric (Ishizawa et al.), 50
Hypotensive effect during beta-adrenergic blockade in hypertensive patients, mechanism of; hemodynamic and renin response to a new cardioselective agent, Tenormin or ICI 66,082 (Amery et al.), 634

I

ICI 66,082 or Tenormin, a new cardioselective agent, hemodynamic and renin response to; mechanism of hypotensive effect during beta-adrenergic blockade in hypertensive patients (Amery et al.), 634
IHSS, bacterial endocarditis in (Katholi and Levitin), 131 (Letter to Editor)
Impedance, transthoracic electrical, changes in, during submaximal treadmill exercise in patients with ischemic heart disease, a preliminary report (Balasubramanian and Hoon), 43
Incompatibility, chemical, of Renografin 76 and protamine sulfate (Martin and Taylor), 675 (Annot.)
Indexes of myocardial function in man, internal, relationship between duration of systolic upstroke of apexcardiogram and (Manolas, Wirz, and Rutishauser), 726
Indicator dilution flows and transit times with a pocket calculator (Parker and Pearce), 826 (Letter to Editor)
Infants with transposition of the great arteries, percutaneous balloon atrial septostomy in (Hurwitz and Girod), 618
Infarction (Dressler's) syndrome, postmyocardial, report of a case with immunological and viral studies (Kennedy and Das), 233
myocardial, acute, following wasp sting, report of two cases and critical survey of the literature (Levine), 365
in man, effect of intravenous digoxin on occurrence of ventricular tachyarrhythmias in (Reičansky et al.), 705
formation of coronary arterial thrombi in relation to onset of necrosis in; clinical and autoradiographic study (Erhardt, Unge, and Boman), 592
sudden death and, what are we talking about (Grace), 1
and aspirin (Jick and Elwood), 126 (Annot.)
clinical correlates of coronary cineangiography in young males with (Savran et al.), 551
during coronary artery bypass surgery, follow-up catheterization of patients with (Fruehan et al.), 186
inferior, single right-sided precordial lead in diagnosis of right ventricular involvement in (Erhardt, Sjögren, and Wahlberg), 571
wall, VCG, ECG, and angiographic correlations in apparently isolated (Mehta et al.), 699
primary risk factors in patients with (Elmfeldt et al.), 412
Inferior myocardial infarction, single right-sided precordial lead in diagnosis of right ventricular involvement in (Erhardt, Sjögren, and Wahlberg), 571

Inferior—continued
wall myocardial infarction, VCG, ECG, and angiographic correlations in apparently isolated (Mehta et al.), 699
Inhomogeneity effects in electrocardiography, some quantitative estimates of (Rush and Baldwin), 623
Instrumentation performance testing: a prerequisite for hospital safety (Shaffer, Rios, and Klingenmaier), 819 (Annot.)
Intermembrane alterations in human heart mitochondria, incidence of: preliminary ultrastructural study (Smith and Klima), 563
Internal indexes of myocardial function in man, relationship between duration of systolic upstroke of apexcardiogram and (Manolas, Wirz, and Rutishauser), 726
Interpretation of findings using Holter ECG recordings (Kennedy), 824 (Letter to Editor)
Interval, QT, prolonged, attacks of ventricular fibrillation and unconsciousness in a patient with. A family study (Chaudron et al.), 783
Intestinal circulation, dopamine effects on the (Pawlik et al.), 325
Intracoronary arterial injections, sinus slowing produced by, of hyperosmotic solutions in man (Abe et al.), 339
Intractable congestive heart failure, chronic, "new" treatment for (Burch, León-Galindo, and Cronvich), 735
Intravenous digoxin on occurrence of ventricular tachyarrhythmias in acute myocardial infarction in man, effect of (Reičansky et al.), 705
Ischemia, myocardial, lysosomal mechanisms in production of tissue damage during, and the effects of treatment with steroids (Fox, Hoffstein, and Weissmann), 394
Ischemic heart disease, changes in transthoracic electrical impedance, during submaximal, a preliminary report (Balasubramanian and Hoon), 43
dynamic nature of ST-T segment in (Stern and Tzivoni), 820 (Annot.)
Isolated rheumatic carditis, observations on diagnosis of (Ward), 545
Isovolumic phase indices in assessment of left ventricular function, relative insensitivity of (Naqvi et al.), 577

K

Korotkoff, N. C.—1874-1920—Pioneer vascular surgeon (Segall), 816 (Historical Note)
Korotkoff sound filtering for automated three-phase measurement of blood pressure (Maurer and Noordergraaf), 584

L

Lead, single right-sided precordial, in diagnosis of right ventricular involvement in inferior myocardial infarction (Erhardt, Sjögren, and Wahlberg), 571
strength, importance of, in ST changes produced by exercise (Santinga), 403
Left axis deviation (Clement), 824 (Letter to Editor)
Levophase ("forward") ventriculograms in patients with coronary artery disease, comparison of selective left ventriculograms with (Ferlinz et al.), 721
Lidocaine, effects of, on canine ECG and electrophysiologic properties of Purkinje fibers (Rosen, Merker, and Pippenger), 191
intramuscular, controlled trial of, in prevention of premature ventricular contractions associated with acute myocardial infarction (Singh and Kocot), 430
Lutembacher syndrome obsolete? A new modified concept of mitral valve disease and left-to-right shunt at the atrial level (Gueron and Gussarsky), 535 (Annot.)

M

Management of hypertension, drugs in the. Part I (Page, Yager, and Sidd), 810
Measurement of blood oxygen content (Adams and Cole), 678 (Letter to Editor)
pressure, automated three-phase, Korotkoff sound filtering for (Maurer and Noordergraaf), 584
Mechanism of hypotensive effect during beta-adrenergic blockade in hypertensive patients: hemodynamic and renin response to a new cardio-selective agent, Tenormin or ICI 66,082 (Amery et al.), 634
Metolazone, a diuretic agent (Stern), 262
Mexiletine, long-term treatment of ventricular arrhythmias with oral (Talbot, Julian, and Prescott), 58
Mitochondria, human heart, incidence of intermembrane alterations in: preliminary ultrastructural study (Smith and Klima), 563
Mitral insufficiency, development of, following closure of ostium secundum atrial-septal defect (Ben-Zvi, Hildner, and Samet), 83
leaflet prolapse, double, echocardiographic–phonocardiographic correlation (Cohen), 168
stenosis and left atrial ball thrombus: "Hole-in-one" sudden death (Lie and Entman), 798 (Clinical Pathologic Conference)
effect of nitroglycerin upon pulmonary and left atrial pressures in patients with (Rothbaum, Dillon, and Feigenbaum), 156
valve, abnormal motion of the, with pericardial effusion, pseudo-prolapse of the mitral valve (Levisman and Abbasi), 18
prolapse, significance of, in middle-aged and elderly men (Higgins et al.), 292
syndrome, autoauscultation in a patient with floppy (Segall), 269 (Letter to Editor)
whistle heard across the room, floppy (Lababidi), 825 (Letter to Editor)
Myocardial conduction in the human heart, effects of smoking on (Bekheit and Fletcher), 712
depressant factor in cardiogenic shock (Hosono and Okuda), 126 (Annot.)
function in man, internal indexes of, relationship between duration of systolic upstroke of apexcardiogram and (Manolas, Wirz, and Rutishauser), 726
hypertrophy hormone, norepinephrine (Laks and Morady), 674 (Annot.)
infarction, acute, following wasp sting, report of two cases and critical survey of the literature (Levine), 365
sudden death and, what are we talking about (Grace), 1
and aspirin (Jick and Elwood), 126 (Annot.)
clinical correlates of coronary cineangiography in young males with (Savran et al.), 551
controlled trial of intramuscular lidocaine in prevention of premature ventricular contractions associated with acute (Singh and Kocot), 430
coronary artery spasm as cause of, during coronary arteriography (Engel, Page, and Campbell), 501
during coronary artery bypass surgery, follow-up catheterization of patients with (Fruehan et al.), 186
inferior, single right-sided precordial lead in diagnosis of right ventricular involvement in (Erhardt, Sjögren, and Wahlberg), 571
in man, acute, effect of intravenous digoxin on occurrence of ventricular tachyarrhythmias in (Reicansky et al.), 705
formation of coronary arterial thrombi in relation to onset of necrosis in; clinical and autoradiographic study (Erhardt, Unge, and Boman), 592
inferior wall, VCG, ECG, and angiographic correlations in apparently isolated (Mehta et al.), 699
primary risk factors in patients with (Elmfeldt et al), 412
ischemia, lysosomal mechanisms in production of tissue damage during, and the effects of treatment with steroids (Fox, Hoffstein, and Weissmann), 394
Myxoma, right ventricular, diagnostic features of (Snyder et al.), 240

N

N. C. Korotkoff—1874-1920—Pioneer vascular surgeon (Segall), 816 (Historical Note)

Necrosis, onset of in acute myocardial infarction in man, formation of coronary arterial thrombi in relation to; clinical and autoradiographic study (Erhardt, Unge, and Boman), 592
"New" treatment for chronic intractable congestive heart failure (Burch, León-Galindo, and Cronvich), 735
Nitroglycerin, effect of, upon pulmonary and left atrial pressures in patients with mitral stenosis (Rothbaum, Dillon, and Feigenbaum), 156
Node sensing, improved sinus, after atropine (Bissett et al.), 752
Norepinephrine, borderline hypertension and (Kessler), 268 (Letter to Editor)
the myocardial hypertrophy hormone? (Laks and Murady), 674 (Annot.)

O

Of a standard hospital chart (Burch), 822 (Annot.)
questions (Burch), 677 (Annot.) *Concerning dangers of the treadmill*
smoking and the respiratory tract (Burch), 401 (Annot.)
soup (Burch), 267 (Annot.)
the P-R segment depression and atrial infarction (Burch), 129 (Annot.)
URI and cardiomyopathy (Burch), 538 (Annot.)
Oliguric states, renal blood supply in, when is a kidney ischemic? a fundamental in cardiology (Hollenberg and Adams), 255
Ostium secundum, development of mitral insufficiency following closure of, atrial-septal defect (Ben-Zvi, Hildner, and Samet), 83
Oxygen, blood, measurement of content (Adams and Cole), 678 (Letter to Editor)

P

Pacemakers, implantable, self-anchoring electrode for (Fiandra et al.), 468
implantation, long-term survival of elderly patients after (Amikam et al.), 445
Percutaneous balloon atrial septostomy in infants with transposition of the great arteries (Hurwitz and Girod), 618
Performance testing, instrumentation: a prerequisite for hospital safety (Shaffer, Rios, and Klingenmaier), 819 (Annot.)
Pericardial effusion, abnormal motion of the mitral valve with: pseudo-prolapse of the mitral valve (Levisman and Abbasi), 18
Pericarditis, ECG of constrictive—pattern resembling right ventricular hypertrophy (Chesler, Mitha, and Matisonn), 420
Peripheral circulation in borderline hypertension (Wallace), 268 (Letter to Editor)
Phase indices, isovolumic, in assessment of left ventricular function, relative insensitivity of (Naqvi et al.), 577
Phonocardiography, intracardiac, clinical study on the flow murmurs at the defect area of atrial-septal defect by means of (Kambe et al.), 35
Pioneer vascular surgeon—N. C. Korotkoff—1874-1920 (Segall), 816 (Historical note)
Plasma renin determinations in renovascular and primary hypertension, clinical value of (Page), 665
Plantain diet, endocardial changes produced in Patus monkeys by ablation of cardiac lymphatics and the administration of (McKinney), 484
Platelet aggregation, effect of vitamin E on (Gomes, Venkatachalapathy, and Haft), 425
Pocket calculator, indicator dilution flows and transit times with a (Parker and Pearce), 826 (Letter to Editor)
P-R segment depression and atrial infarction, of the (Burch), 129 (Annot.)
Precordial lead in diagnosis of right ventricular involvement in inferior myocardial infarction, single right-sided (Erhardt, Sjögren, and Wahlberg), 571
Pressure(s), blood, automated three-phase measurement of, Korotkoff sound filtering for (Maurer and Noordergraaf), 584
elevated left ventricular filling, therapeutic implications of diazepam in patients with (Côte, Campeau, and Bourassa), 747
pulmonary and left atrial, in patients with mitral stenosis, effect of nitroglycerin upon (Rothbaum, Dillon, and Feigenbaum), 156
Primary and renovascular hypertension, clinical value of plasma renin determinations in (Page), 665
Prinzmetal's variant form of angina as a manifestation of alpha-adrenergic receptor-mediated coronary artery spasm: documentation by coronary arteriography (Yasue et al.), 148
Procainamide, facilitation of A-V nodal reciprocation by (Fabregas et al.), 460
Propranolol therapy, chronic, residual effects when discontinued within 48 hours of cardiopulmonary bypass (Tyers and Hughes), 757
Prostheses, valve, aortic ball, Starr-Edwards, arterial thromboembolic complications in patients with (Dale), 653
Protamine sulfate, and Renografin 76, chemical incompatibility of (Martin and Taylor), 675 (Annot.)
Pseudo-prolapse of mitral valve, abnormal motion of the mitral valve with pericardial effusion (Levisman and Abbasi), 18
Pulmonary blood flow, initial adjustment of cardiac output in response to onset of exercise in patients with chronic pacemaking as studied by measurement of (Koyama, Nakajima, and Horimoto), 457
embolism, massive, role of pulmonary embolectomy (Paneth and Miller), 133 (Letter to Editor)
venous connection, total anomalous, report of 93 autopsied cases with emphasis on diagnostic and surgical considerations (Delisle et al.), 99
Purkinje fibers, effects of lidocaine on canine ECG and electrophysiologic properties of (Rosen, Merker, and Pippenger), 191

Q

QT interval, attacks of ventricular fibrillation and unconsciousness in a patient with prolonged. A family study (Chaudron et al.), 783
Quantitative estimates of inhomogeneity effects in electrocardiography, some (Rush and Baldwin), 623
Questions, of (Burch), 677 (Annot.) *Concerning dangers of the treadmill*

R

Radiology (De Giuli), 128 (Annot.)
Receptor blockade, beta-adrenergic, and renal function (Warren), 265 (Annot.)
mediated coronary artery spasm, alpha-adrenergic, Prinzmetal's variant form of angina as a manifestation of: documentation by coronary arteriography (Yasue et al.), 148
Reciprocation: A mechanism for tachycardias (Spurrell), 409
Recordings, Holter, practical advantages of two-channel electrocardiographic (Kennedy, Underhill, and Warbasse), 822 (Annot.)
ECG, interpretation of findings using (Kennedy), 824 (Letter to Editor)
Recovery and remission from chronic, established, complete heart block (Rytand, Stinson, and Kelly), 645
Remission and recovery from chronic, established, complete heart block (Rytand, Stinson, and Kelly), 645

Renal blood supply in oliguric states, when is a kidney ischemic? A fundamental in cardiology (Hollenberg and Adams), 255
function, beta-adrenergic receptor blockade and (Warren), 265 (Annot.)
Renin and hemodynamic response to a new cardioselective agent, Tenormin or ICI 66,082; mechanism of hypotensive effect during beta-adrenergic blockade in hypertensive patients (Amery et al.), 634
determinations, plasma, in renovascular and primary hypertension, clinical value of (Page), 665
Renografin 76 and protamine sulfate, chemical incompatibility of (Martin and Taylor), 675 (Annot.)
Renovascular and primary hypertension, clinical value of plasma renin determinations in (Page), 665
Residual effects when chronic propranolol therapy is discontinued within 48 hours of cardiopulmonary bypass (Tyers and Hughes), 757
Respiratory tract, of smoking and the (Burch), 401 (Annot.)
Resuscitation, mechanics of widespread training of cardiopulmonary, community project implemented by volunteers (Flax et al.), 123
Rheumatic carditis, isolated, observations on diagnosis of (Ward), 545
Rhythm, reciprocal, in patients with normal electrocardiogram, evidence for dual conduction pathways (Touboul et al.), 3
Risk factors, primary, in patients with myocardial infarction (Elmfeldt et al.), 412

S

Safety, hospital, prerequisite for: instrumentation performance testing (Shaffer, Rios, and Klingenmaier), 819 (Annot.)
Segment, ST-T, in ischemic heart disease, dynamic nature of (Stern and Tzivoni), 820 (Annot.)
Sensing, improved sinus node, after atropine, (Bissett et al.), 752
Septal defect, atrial, changes in heart dipole moment after surgical correction of (Nelson, Dowling, and Sloman), 766
Septostomy, atrial, percutaneous balloon, in infants with transposition of the great arteries (Hurwitz and Girod), 618
Septum, membraneous, radiologic patterns of aneurysms of (Hoeffel et al.), 450
Sexual activity, sudden death in (Nalbantgil, Yiğitbaşi, and Kiliçciouğlu), 405 (Letter to Editor)
Sick sinus syndrome, sinoatrial block in the, first-degree sinoatrial heart block (Engel et al.) 303
Sinoatrial heart block, first-degree, sinoatrial block in the sick sinus syndrome (Engel et al.), 303
Sinus node dysfunction, spectrum of, in two siblings (Nordenberg, Varghese, and Nugent), 507
sensing, improved, after atropine (Bissett et al.), 752
slowing produced by intracoronary arterial injections of hyperosmotic solutions in man (Abe et al.), 339
Smoking and the respiratory tract, of (Burch), 401 (Annot.)
effects of, on myocardial conduction in the human heart (Bekheit and Fletcher), 712
Sodium diphenylhydantoin, sudden death following intravenous (Zoneraich, Zoneraich, and Siegel), 375
Solutions, hyperosmotic, sinus slowing produced by intracoronary arterial injections of, in man (Abe et al.), 339
Sound(s) filtering, Korotkoff, for automated three-phase measurement of blood pressure (Maurer and Noordergraaf), 584
systolic (Stapleton and Harvey), 383
Soup, of (Burch), 267 (Annot.)
Spasm, coronary artery, alpha-adrenergic receptor-mediated, Prinzmetal's variant form of angina as a manifestation of: documentation by coronary arteriography (Yasue et al.), 148
Spatial pattern analysis, high reliability rates of, by vectorcardiogram in assessing the severity of eccentric left ventricular hypertrophy (Ishizawa et al.), 50
Standard hospital chart, of a (Burch), 822 (Annot.)
Starr-Edwards aortic ball valve prostheses, arterial thromboembolic complications in patients with (Dale), 653
Steal syndrome, inter-coronary (Rao), 132 (Letter to Editor)
Stenosis, idiopathic hypertrophic subaortic, electrocardiographic and hemodynamic correlations in patients with (Walston et al.), 11
mitral, and left atrial ball thrombus: "Hole-in-one" sudden death (Lie and Entman), 798 (Clinical Pathologic Conference)
effect of nitroglycerin upon pulmonary and left atrial pressures in patients with (Rothbaum, Dillon, and Feigenbaum), 156
Steroids, lysosomal mechanisms in production of tissue damage during myocardial ischemia and the effects of treatment with (Fox, Hoffstein, and Weissmann), 394
ST-T segment in ischemic heart disease, dynamic nature of (Stern and Tzivoni), 820 (Annot.)
Sudden death, "hole-in-one": mitral stenosis and left atrial ball thrombus (Lie and Entman), 798 (Clinical Pathologic Conference)
Sulfate, protamine, and Renografin 76, chemical incompatibility of (Martin and Taylor), 675 (Annot.)
Surgeon, vascular, pioneer—N. C. Korotkoff—1874-1920 (Segall), 816 (Historical Note)
Surgical correction of atrial septal defect, changes in heart dipole moment after (Nelson, Dowling, and Sloman), 766
Systolic upstroke of apexcardiogram and internal indexes of myocardial function in man, relationship between duration of (Manolas, Wirz, and Rutishauser), 726
Syndrome, floppy mitral valve, autoauscultation in a patient with (Segall), 269 (Letter to Editor)
postmyocardial infarction (Dressler's), report of a case with immunological and viral studies (Kennedy and Das), 233
steal, inter-coronary (Rao), 132 (Letter to Editor)

T

Tachyarrhythmias, ventricular, in acute myocardial infarction in man, effect of intravenous digoxin on occurrence of (Reičansky et al.), 705
Tachycardias, a mechanism for—reciprocation (Spurrell), 409
influence of pacemaker-induced, with A-V block on left ventricular blood velocity in man (Benchimol et al.), 178
paroxysmal supraventricular, atrioventricular conduction patterns in patients with (Bissett et al.), 287
Telemetry, ECG, inexpensive receiver for (Uhley), 346
Tenormin or ICI 66,082, a new cardioselective agent, hemodynamic and renin response to; mechanism of hypotensive effect during beta-adrenergic blockade in hypertensive patients (Amery et al.), 634
Testing, instrumentation performance: a prerequisite for hospital safety (Shaffer, Rios, and Klingenmaier), 819 (Annot.)
Therapeutic implications of diazepam in patients with elevated left ventricular filling pressure (Côte, Campeau, and Bourassa), 747
Therapy, chronic propranolol, residual effects when discontinued within 48 hours of cardiopulmonary bypass (Tyers and Hughes), 757
Thromboembolic complications, arterial, in patients with Starr-Edwards aortic ball valve prostheses (Dale), 653
Thrombosis, coronary: facts and beliefs (Baroldi), 683
deep-vein, prevention of (Simpson), 400 (Annot.)

Thrombi, arterial, coronary, in relation to onset of necrosis in acute myocardial infarction in man, formation of; clinical and autoradiographic study (Erhardt, Unge, and Boman), 592
Thrombus, ball, left atrial, mitral stenosis and: "Hole-in-one" sudden death (Lie and Entman), 798 (Clinical Pathologic Conference)
Transit times and indicator dilution flows with a pocket calculator (Parker and Pearce), 826 (Letter to Editor)
Transposition of the great arteries, infants with, percutaneous balloon atrial septostomy in (Hurwitz and Girod), 618
Transthoracic electrical impedance, changes in, during submaximal treadmill exercise in patients with ischemic heart disease, a preliminary report (Balasubramanian and Hoon) 43
Treadmill exercise, submaximal, changes in transthoracic electrical impedance during, in patients with ischemic heart disease, a preliminary report (Balasubramanian and Hoon), 43
Treatment for chronic intractable congestive heart failure, "new" (Burch, León-Galindo, and Cronvich), 735
T(Ta) loop in dogs with or without atrial injury, atrial (Hayashi, Okajima, and Yamada), 607
in patients with A-V block, atrial: a trial to differentiate normal and abnormal groups (Hayashi, Okajima, and Yamada), 492
wave, atrial, and atrial gradient in patients with A-V block (Hayashi, Okajima, and Yamada), 689
Two-channel electrocardiographic Holter recordings, practical advantages of (Kennedy, Underhill, and Warbasse), 822 (Annot.)

U

Unconsciousness and ventricular fibrillation, attacks of, in a patient with prolonged QT interval. A family study (Chaudron et al.), 783
Upstroke of apexcardiogram, systolic, and internal indexes of myocardial function in man, relationship between duration of (Manolas, Wirz, and Rutishauser), 726
URI and cardiomyopathy, of (Burch), 538 (Annot.)

V

Valve prostheses, aortic ball, Starr-Edwards, arterial thromboembolic complications in patients with (Dale), 653
Vascular surgeon, pioneer—N. C. Korotkoff—1874-1920 (Segall), 816 (Historical Note)
Vectorcardiogram, high reliability rates of spatial pattern analysis by, in assessing the severity of eccentric left ventricular hypertrophy (Ishizawa et al.), 50
Vectorcardiographic, electrocardiographic, and angiographic correlations in apparently isolated inferior wall myocardial infarction (Mehta, et al.), 699
Ventricular arrhythmias, long-term treatment of, with oral mexiletine, (Talbot, Julian, and Prescott), 58
contractions, premature, associated with acute myocardial infarction, controlled atrial of intramuscular lidocaine in prevention of (Singh and Kocot), 430
fibrillation and unconsciousness, attacks of, in a patient with prolonged QT interval. A family study (Chaudron et al.), 783
filling pressure, elevated left, therapeutic implications of diazepam in patients with (Côte, Campeau, and Bourassa), 747
function, left, relative insensitivity of isovolumic phase indices in assessment of (Naqvi et al.), 577
involvement, right, in inferior myocardial infarction, single right-sided precordial lead in diagnosis of (Erhardt, Sjögren, and Wahlberg), 571
performance measured during ejection; studies in patients of the rate of change of ventricular power (Stein and Sabbah), 599
power, rate of change of, an indicator of ventricular performance during ejection (Stein and Sabbah), 219
studies in patients of the rate of change of; ventricular performance measured during ejection (Stein and Sabbah), 599
septal defect with outflow tract obstruction, increased cyanosis in (Guntheroth), 404 (Letter to Editor)
tachyarrhythmias in acute myocardial infarction in man, effect of intravenous digoxin on occurrence of (Reičansky et al.), 705
volumes, left, estimation of, a simplified method (Meaney et al.), 399 (Annot.)
Ventriculograms, levophase ("forward") in patients with coronary artery disease, comparison of selective left ventriculograms with (Ferlinz et al.), 721
Ventriculograms, selective left, comparison of with levophase ("forward") ventriculograms in patients with coronary artery disease (Ferlinz et al.), 721
Vitamin E, effect of, on platelet aggregation (Gomes, Venkatachalapathy, and Haft), 425

W

Wasp sting, acute myocardial infarction following, report of two cases and critical survey of the literature (Levine), 365
Wave(s), atrial T(Ta), and atrial gradient in patients with A-V block (Hayashi, Okajima, and Yamada), 689
cannon, with A-V association (Berman and Waxman), 643
Whistle, floppy mitral, heard across the room (Lababidi), 825 (Letter to Editor)

Subject index*

A

Abrupt cessation of antihypertensive medication in the preoperative period: postoperative hypertension, a hazard of (Katz, Croneau, and Barash), 79
Acetylsalicylic acid, dipyridamole, and hydrocortisone on epinephrine-induced myocardial injury in dogs, effects of (Kraikitpanitch et al.), 615
Acid, acetylsalicylic, dipyridamole, and hydrocortisone on epinephrine-induced myocardial injury in dogs, effects of (Kraikitpanitch et al.), 615
Acknowledgment to reviewers, 679
Activation, ventricular, and map patterns of measured and difference maps, correlations between the spread of (Toyoshima), 183
Acute bacterial pericarditis (Eyer), 125 (Letter to Editor)
Reply (Perry), 125
coronary occlusion following blunt injury to the chest in the absence of coronary atherosclerosis (Oren, Bar-Shlomo, and Stern), 501
hypoxia, effect of on the viscoelastic properties of the myocardium (Little), 609
myocardial infarction, hypoxemia and lung water in (Biddle et al.), 692
reduction of hospital mortality rate of with glucose-insulin-potassium infusion (Rogers et al.), 441
rehabilitation and length of hospitalization after (Miller), 547
serum glycoproteins in (Jakab et al.), 812 (Letter to Editor)
Administration, chronic propranolol, and acute myocardial infarction (Bloch, Beller, and DeSanctis), 121 (Annot.)
Adrenergic blocking agents, the. Present state of alpha and beta adrenergic drugs II. (Ahlquist), 804
drugs, present state of alpha and beta II. The adrenergic blocking agents (Ahlquist), 804
effects on the QT interval of the electrocardiogram (Abildskov), 210
receptor, the. Present state of alpha- and beta-adrenergic drugs I. (Ahlquist), 661
Agents, the adrenergic blocking. Present state of alpha and beta adrenergic drugs II. (Ahlquist), 804
Ajmaline, cardiovascular effects of (Obayashi et al.), 487
Alcoholism, chronic, intramyocardial small-vessel disease in (Factor), 561
Alpha- and beta-adrenergic drugs, present state of I. The adrenergic receptor (Ahlquist), 661
II. The adrenergic blocking agents (Ahlquist), 804
Alprenolol, effect of beta-adrenergic blockade with on ST-segment depression and circulatory dynamics during exercise in patients with effort angina (Bailey et al.), 416
Analysis, statistical, of the different factors which could affect postextrasystolic potentiation in the human heart (Palmero and Caeiro), 427
Angina, effort, effect of beta-adrenergic blockade with alprenolol on ST-segment depression and circulatory dynamics during exercise in patients with (Bailey et al.), 416
pectoris, aspirin therapy in: effects on platelet aggregation, exercise tolerance, and electrocardiographic manifestations of ischemia (Frishman et al.), 3
Angina pectoris—continued
influence of inspiration on: a clue to right coronary artery disease (Buda and Levene), 537 (Annot.)
unstable (Cairns, Fantus, and Klassen), 373
Angiograms, pulmonary, comparative analysis of pulmonary perfusion scans with. From a National Cooperative Study (Bell and Simon), 700
Angiocardiographic, clinical, and pathologic findings in 100 patients. Truncus Arteriosus Communis (Calder et al.), 23
Announcements, 128, 270, 412, 546, 678, 817
Anomalous pulmonary venous connection, total (TAPVC) vital statistics (Bharati), 410 (Letter to Editor)
Reply (Van Praagh), 410
Anoxia, local cooling during, histochemical evaluation of myocardial preservation by (Viskos et al.), 669 (Annot.)
Anterior hemiblock, left, simulating anteroseptal myocardial infarction (Farnham and Shah), 363
Anteroseptal myocardial infarction, left anterior hemiblock simulating (Farnham and Shah), 363
Antiarrhythmic activity of potassium canrenoate in man (Yeh, Chiang, and Sung), 308
Antihypertensive medication, abrupt cessation of in the preoperative period: postoperative hypertension, a hazard of (Katz, Croneau, and Barash), 79
Antikaliuretics and kaliuretics without digitalis, cardiac actions of (Walter), 124 (Letter to Editor)
Reply (Seller), 125
Antiplatelet drugs—a new pharmacologic approach to the prevention of thrombosis (Weiss), 86
Aorta complicating intra-aortic balloon counterpulsation, dissection of the (Biddle, Stewart, and Stuard), 781
Aortic and mitral valve prostheses, clinical evaluation of (Burch and Giles), 245
regurgitation, flutter of left ventricular structures in patients with, with special reference to patients with associated mitral stenosis (D'Cruz et al.), 684
trunk, solitary, ventricular septal defect, and ductal origins of pulmonary arteries (Stone et al.), 506
valve disease, incidence and morphology of carotid shudders in (Alpert, Vieweg, and Hagan), 435
Arrhythmia(s) associated with coronary occlusion, effects of unilateral stellate ganglion blockade on the (Schwartz, Stone, and Brown), 589
conversion and serum level: Disopyramide (Niarchos), 57
ventricular, effect of coronary bypass surgery on exercise-induced (Tilkian et al.), 707
Arterial pressure, elevated, and postexertional ST-segment depression in middle-aged women (Kusumi et al.), 576
pulse wave, slope of brachial, effects of treadmill exercise on timing of the heart and arterial sounds, and (Inagaki, Wassermil, and Rodbard), 283
sounds and heart, timing of, and the slope of the brachial arterial pulse wave, effects of treadmill exercise on (Inagaki, Wassermil, and Rodbard), 283
Artery disease, coronary, effects of isosorbide dinitrate and nitroglycerin on central circulatory dynamics in (Battock, Levitt, and Steele), 455

*July, pp. 1-128; August, pp. 129-270; September, pp. 271-412; October, pp. 413-546; November, pp. 547-678; December, pp. 679-840.

Artery disease—continued
coronary, right, a clue to: influence of inspiration on angina pectoris (Buda and Levene), 537 (Annot.)
occlusion, coronary, and release, differing mechanisms for ventricular vulnerability during (Corbalan, Verrier, and Lown), 223
release, coronary, and occlusion, differing mechanisms for ventricular vulnerability during (Corbalan, Verrier, and Lown), 223
Arteries, pulmonary, ductal origins of, ventricular septal defect, solitary aortic trunk, and (Stone et al.), 506
Arteriosus Communis, Truncus. Clinical, angiocardiographic, and pathologic findings in 100 patients (Calder et al.), 23
(TAC), classification of (Van Praagh), 129
Arteritis, viral coronary, and myocardial infarction (Burch and Shewey), 11
Aspirin therapy in angina pectoris: effects on platelet aggregation, exercise tolerance, and electrocardiographic manifestations of ischemia (Frishman et al.), 3
Arteriosus, truncus, persistent. A comment (Edwards), 1
Associated mitral stenosis, flutter of left ventricular structures in patients with aortic regurgitation, with special reference to patients with (D'Cruz et al.), 684
Asymmetric septal hypertrophy, isolated dextroversion of the heart with (Buxton et al.), 785
Atherosclerosis, coronary, acute coronary occlusion following blunt injury to the chest in the absence of (Oren, Bar-Shlomo, and Stern), 501
Atherosclerotic heart disease, concerning the etiology of (Scaff), 267 (Letter to Editor)
Reply (Eskwith), 267
Atrial and ventricular stimulation on sinus node function in man, comparison of the effects of (Bissett et al.), 459
septal defects, natural history of small: long-term follow-up with serial heart catheterizations (Andersen et al.), 302
size, left, and pulmonary capillary pressure, comparison of with P wave of electrocardiogram (Rubler, Shah, and Moallem), 73
Atrioventricular (A-V) block, complete, combined with pre-excitation syndrome, His bundle recordings in a case of (Seipel et al.), 623
conduction in children (Sapire and Shah), 267 (Letter to Editor)
Reply (Serratto and Miller), 268
Atropine and vagotomy, coronary occlusion site as a determinant of the cardiac rhythm effects of (Corr, Pearle, and Gillis), 741
A2 England influenza epidemic, observations on: a clinicopathological study (Verel et al.), 290
Autoradiography, localization by of tritiated isoproterenol in "infarct-like" lesions of rat myocardium (Milei and Rapaport), 351

B

Baboons and dogs, comparison of the coronary collateral circulation in after coronary occlusion (Weisse et al.), 193
Bacterial pericarditis, acute (Eyer), 125 (Letter to Editor)
Reply (Perry), 125
Balloon counterpulsation, intra-aortic, dissection of the aorta complicating (Biddle, Stewart, and Stuard), 781
Beta-adrenergic blockade with alprenolol on ST-segment depression and circulatory dynamics during exercise in patients with effort angina, effect of (Bailey et al.), 416
Beta-adrenoceptor blockade, long-term, improvement in prognosis of myocardial infarction by (Green et al.), 537 (Annot.)
Beta- and alpha-adrenergic drugs, present state of I. The adrenergic receptor (Ahlquist), 661
II. The adrenergic blocking drugs (Ahlquist), 804
Bidirectional tachycardia with normal QRS duration (Rothfeld), 231
Bifascicular block and experimental hemiblock, ECG and VCG changes in (Okuma), 473
Biopsy, endomyocardial, in dogs, effectiveness and hazard of: comparison of two methods (Hirota, Khaja, and Abelmann), 767
Block, atrioventricular, complete, combined with pre-excitation syndrome, His bundle recordings in a case of (Seipel et al.), 623
bifascicular, and experimental hemiblock, ECG and VCG changes in (Okuma), 473
intraventricular trifascicular, verified by His bundle electrocardiography (Thomsen, Sterndorff, and Gøtzsche), 497
transient right bundle branch, with "Swan-Ganz" catheterization (Luck and Engel), 263 (Annot.)
Blockade, beta-adrenergic, with alprenolol on ST-segment depression and circulatory dynamics during exercise in patients with effort angina, effect of (Bailey et al.), 416
long-term beta-adrenoceptor, improvement in prognosis of myocardial infarction by (Green et al.), 537 (Annot.)
unilateral stellate ganglion, effects of on the arrhythmias associated with coronary occlusion (Schwartz, Stone, and Brown), 589
Blocking, agents, the adrenergic. Present state of alpha and beta adrenergic drugs II. (Ahlquist), 804
Blood flow, coronary, hemodynamics, and cardiac mechanics in uncomplicated systemic lupus erythematosus: lupus cardiomyopathy (Strauer et al.), 715
pressure and heart rate responses during sexual activity in normal males (Nemec, Mansfield, and Kennedy), 274
in women taking oral contraceptives (Weir), 119 (Annot.)
viscosity on pulmonary vascular resistance, effects of increased (Nihill, McNamara, and Vick), 65
Blunt injury to the chest in the absence of coronary atherosclerosis, acute coronary occlusion following (Oren, Bar-Shlomo, and Stern), 501
Book reviews, 127, 269, 411, 545, 677, 816
Books received, 128, 270, 546, 678, 817
Boston Collaborative Drug Surveillance Program, a report from. Clinical use and toxicity of intravenous lidocaine (Pfeifer, Greenblatt, and Koch-Weser), 168
Brachial arterial pulse wave, slope of, effects of treadmill exercise on timing of the heart and arterial sounds, and (Inagaki, Wassermil, and Rodbard), 283
Branch, block, transient right bundle, with "Swan-Ganz" catheterization (Luck and Engel), 263 (Annot.)
Branches, bundle, conduction disturbances of, produced by lesions in nonbranching portion of His bundle (Fabregas, Tse, and Han), 356
Bundle branches, conduction disturbances of, produced by lesions in nonbranching portion of His bundle (Fabregas, Tse, and Han), 356
block, transient right, with "Swan-Ganz" catheterization (Luck and Engel), 263 (Annot.)
electrocardiography, His, intraventricular trifascicular block verified by (Thomsen, Sterndorff, and Gøtzsche), 497
His, nonbranching portion of, conduction disturbances of bundle branches produced by lesions in (Fabregas, Tse, and Han), 356
recordings, His, in a case of complete atrioventricular block combined with pre-excitation syndrome (Seipel et al.), 623
Bupicomide, a new vasodilator, systemic and renal hemodynamic effects of (Chrysant et al.), 335
Bypass surgery, coronary, LDH isoenzymes and myocardial infarction in patients undergoing: an excellent correlation (Mohiuddin et al.), 584
on exercise-induced ventricular arrhythmias, effect of (Tilkian et al.), 707

C

Canrenoate, potassium, antiarrhythmic activity of in man (Yeh, Chiang, and Sung), 308
Capillary pressure, pulmonary, comparison of left atrial size and with P wave of electrocardiogram (Rubler, Shah, and Moallem), 73
Cardiac actions of kaliuretics and antikaliuretics without digitalis (Walter), 124 (Letter to Editor)
Reply (Seller), 125
contractile reserve and vascular reserve in the dog heart with chronic multiple coronary occlusions (Schwarz et al.), 600
disease, hemodynamic effect of steroids in (Gould et al.), 133
dysrhythmias, midbrain-induced, effects of hypercapnea and of hypercapnea in combination with hypoxia on (Mauck et al.), 315
effects of diphenylhydantoin, isoniazid, and propylene glycol (Kirman), 409 (Letter to Editor)
Reply (Zoneraich), 409
of disopyramide (Danilo and Rosen), 532
failure and myocardial oxygen availability in hemorrhagic shock (Lee and Downing), 201
mechanics, hemodynamics, and coronary blood flow in uncomplicated systemic lupus erythematosus: lupus cardiomyopathy (Strauer et al.), 715
movement and structures in congenital and acquired heart diseases, real-time, employing high-speed ultrasonocardiotomography (Nishimura et al.), 340
rhythm of atropine and vagotomy, coronary occlusion site as a determinant of the (Corr, Pearle, and Gillis), 741
tamponade, spontaneous, due to sternotomy wire suture (Mimbs and Weiss), 630
trauma (Symbas), 387
work-up, of the (Burch), 540 (Annot.)
Cardiogenic shock, current concepts on mechanisms and treatment of (Luz, Weil, and Shubin), 103
Cardiomyopathy, lupus: cardiac mechanics, hemodynamics, and coronary blood flow in uncomplicated systemic lupus erythematosus (Strauer et al.), 715
Cardiovascular effects of ajmaline (Obayashi et al.), 487
surgical patient, postoperative, management of the (Kouchoukos and Karp), 513
Care at home, coronary? (Hampton), 808 (Annot.)
Carotid shudders in aortic valve disease, incidence and morphology of (Alpert, Vieweg, and Hagan), 435
Catheterization(s), central venous, prevention and early recognition of complications of (Williamson), 667 (Annot.)
serial heart, long-term follow-up with: natural history of small atrial septal defects (Andersen et al.), 302
"Swan-Ganz", transient right bundle branch block with (Luck and Engel), 263 (Annot.)
Cathodal stimulation-ventricular fibrillation induced by a unipolar implanted pacemaker (Seipel, Bub, and Loogen), 810 (Annot.)
Central circulatory dynamics in coronary artery disease, effects of isosorbide dinitrate and nitroglycerin on (Battock, Levitt, and Steele), 455
venous catheterization, prevention and early recognition of complications of (Williamson), 667 (Annot.)
Cessation of antihypertensive medication, abrupt, in the preoperative period: postoperative hypertension, a hazard of (Katz, Croneau, and Barash), 79
Chest, blunt injury to the, in the absence of coronary atherosclerosis, acute coronary occlusion following (Oren, Bar-Shlomo, and Stern), 501
Childhood, hypertension in: a review (McLain), 634
Children and infants, clinical course of primary myocardial disease in (Greenwood, Nadas, and Fyler), 549
with heart disease, riboflavin deficiency in (Steier, Lopez, and Cooperman), 139
A-V conduction in (Sapire and Shah), 267 (Letter to Editor)
Reply (Serratto and Miller), 268
Children—continued
hypomagnesemia in relation to digoxin intoxication in (Singh, Dube, and Srivastav), 144
severe mitral valve disease in (Aryanpur and Shakibi) 543 (Letter to Editor)
Reply (Gotsman), 543
Cholesterol metabolism, faults of (Crayen), 812 (Letter to Editor)
Reply (Seely), 812
Chronic alcoholism, intramyocardial small-vessel disease in (Factor), 561
multiple coronary occlusions, vascular and cardiac contractile reserve in the dog heart with (Schwarz et al.), 600
obstructive pulmonary disease, effect of dextran loading on left ventricular performance in (Matthay, Ellis, and Steele), 730
propranolol administration and acute myocardial infarction (Bloch, Beller, and DeSanctis), 121 (Annot.)
Circulation, coronary collateral, in dogs and baboons after coronary occlusion, comparison of the (Weisse et al.), 193
Circulatory dynamics and ST-segment depression, effect of beta-adrenergic blockade with alprenolol on during exercise in patients with effort angina (Bailey et al.), 416
central, in coronary artery disease, effects of isosorbide dinitrate and nitroglycerin on (Battock, Levitt, and Steele), 455
Classification of Truncus Arteriosus Communis (TAC) (Van Praagh), 129
Click, midsystolic, and murmur of the prolapsing posterior leaflet of the mitral valve, effect of pregnancy on (Haas), 407 (Annot.)
Clinical, angiocardiographic, and pathologic findings in 100 patients. Truncus Arteriosus Communis (Calder et al.), 23
course of primary myocardial disease in infants and children (Greenwood, Nadas, and Fyler), 549
evaluation of aortic and mitral valve prostheses (Burch and Giles), 245
pathologic conference (Ogilvie, Kay, and Heath), 791
CPC: Obesity, football, dog days and siriasis: a deadly combination (Barcenas, Hoeffler, and Lie), 237
CPC: Ventricular septal defect, solitary aortic trunk, and ductal origins of pulmonary arteries (Stone et al.), 506
use and toxicity of intravenous lidocaine. A report from the Boston Collaborative Drug Surveillance Program (Pfeifer, Greenblatt, and Koch-Weser), 168
Clicopathologic correlations (of) non-bacterial thrombotic endocarditis (Deppisch and Fayemi), 723
Climate, temperate, temperature and incidence of acute myocardial infarction in a (Freeman, McGlashan, and Loughhead), 405 (Annot.)
Coefficients, correlation, for electrocardiographic and constitutional variables (Ishikawa), 152
Collaborative Drug Surveillance Program, Boston, a report from. Clinical use and toxicity of intravenous lidocaine (Pfeifer, Greenblatt, and Koch-Weser), 168
Collateral circulation, coronary, in dogs and baboons after coronary occlusion, comparison of the (Weisse et al.), 193
Communis, Truncus Arteriosus (TAC), classification of (Van Praagh), 129
Clinical, angiocardiographic, and pathologic findings in 100 patients (Calder et al.), 23
Comparative analysis of pulmonary perfusion scans with pulmonary angiograms. From a National Cooperative Study (Bell and Simon), 700
Complex, precordial QRS, computer simulation of: effects of simulated changes in ventricular wall thickness and volume (Salu and Marcus), 758
Complication of right ventricular myxoma (Zager), 673 (Letter to Editor)

Complication(s)—continued
Reply (Snyder), 673
of central venous catheterization, prevention and early recognition of (Williamson), 667 (Annot.)
Computer simulation of the precordial QRS complex: effects of simulated changes in ventricular wall thickness and volume (Salu and Marcus), 758
Conduction disturbances after total correction of tetralogy of Fallot (Sondheimer et al.), 278
disturbances of bundle branches produced by lesions in nonbranching portion of His bundle (Fabregas, Tse, and Han), 356
in children, A-V (Sapire and Shah), 267 (Letter to Editor)
Reply (Serratto and Miller), 268
system and myocardial function, of the (Burch), 809 (Annot.)
Conference, clinical pathologic (Barcenas, Hoeffler, and Lie), 237; (Stone et al.), 506; (Ogilvie, Kay, and Heath), 791
Congenital and acquired heart diseases, real-time observation of cardiac movement and structures in employing high-speed ultrasonocardiotomography (Nishimura et al.), 340
Constitutional and electrocardiographic variables, correlation coefficients for (Ishikawa), 152
Contraceptives, oral, blood pressure in women taking (Weir), 119 (Annot.)
Contractile reserve, vascular and cardiac, in the dog heart with chronic multiple coronary occlusions (Schwarz et al.), 600
Contraction and epicardial ST segments, dissociation of effects (of propranolol) on: propranolol in experimental myocardial ischemia (Bodenheimer, Banka, and Helfant), 481
Cooling, local, during anoxia, histochemical evaluation of myocardial preservation by (Viskos et al.), 669 (Annot.)
Cooperative Study, National, from a. Comparative analysis of pulmonary perfusion scans with pulmonary angiograms (Bell and Simon), 700
Coronary arteritis, viral, and myocardial infarction (Burch and Shewey), 11
artery disease, effects of isosorbide dinitrate and nitroglycerin on central circulatory dynamics in (Battock, Levitt, and Steele), 455
right, a clue to: influence of inspiration on angina pectoris (Buda and Levene), 537 (Annot.)
occlusion and release, differing mechanisms for ventricular vulnerability during (Corbalan, Verrier, and Lown), 223
release, and occlusion, differing mechanisms for ventricular vulnerability during (Corbalan, Verrier, and Lown), 223
atherosclerosis, acute coronary occlusion following blunt injury to the chest in the absence of (Oren, Bar-Shlomo, and Stern), 501
blood flow, hemodynamics, and cardiac mechanics in uncomplicated systemic lupus erythematosus: lupus cardiomyopathy (Strauer et al.), 715
bypass surgery, LDH isoenzymes and myocardial infarction in patients undergoing: an excellent correlation (Mohiuddin et al.), 584
on exercise-induced ventricular arrhythmias, effect of (Tilkian et al.), 707
care at home? (Hampton), 808 (Annot.)
collateral circulation in dogs and baboons after coronary occlusion, comparison of the (Weisse et al.), 193
heart disease and risk factors (Bassler), 266 (Letter to Editor)
Reply (Werkö), 266
occlusion(s), acute, following blunt injury to the chest in the absence of coronary atherosclerosis (Oren, Bar-Shlomo, and Stern), 501
arrhythmias associated with, effects of unilateral stellate ganglion blockade on the (Schwartz, Stone, Brown), 589
Coronary occlusions—continued
chronic multiple, vascular and cardiac contractile reserve in the dog heart with (Schwarz et al.), 600
comparison of the coronary collateral circulation in dogs and baboons after (Weisse et al.), 193
experimental, effect of isosorbide dinitrate following (Meester and Van Harn), 217
site as a determinant of the cardiac rhythm effects of atropine and vagotomy (Corr, Pearle, and Gillis), 741
stenoses, reactive hyperemia, an index of the significance of (Hillis and Friesinger), 737
Correlation, an excellent (between) LDH isoenzymees and myocardial infarction in patients undergoing coronary bypass surgery (Mohiuddin et al.), 584
coefficients for electrocardiographic and constitutional variables (Ishikawa), 152
Counterpulsation, balloon, intra-aortic, dissection of the aorta complicating (Biddle, Stewart, and Stuard), 781
Curricula, health, high school: a neglected medical resource (Mroczek), 271
Cutaneous neurofibromatosis, idiopathic hypertrophic subaortic stenosis associated with:report of a case (Elliott et al.), 368

D

Dangers of the treadmill. (Now the treadmill!) (Burch), 671 (Annot.)
Defect, ventricular septal, and mitral insufficiency after myocardial infarction, simultaneous occurrence of (Gowda, Loh, and Roberts), 234
solitary aortic trunk, and ductal origins of pulmonary arteries (Stone et al.), 506
Defibrillation, transchest electrical ventricular (Morgan and McElroy), 674 (Letter to Editor)
Reply (Ewy), 674
Deficiency, riboflavin, in infants and children with heart disease (Steier, Lopez, and Cooperman), 139
Depression, ST-segment, and circulatory dynamics, effect of beta-adrenergic blockade with alprenolol on during exercise in patients with effort angina (Bailey et al.), 416
Determinant of the cardiac rhythm effects of atropine and vagotomy, coronary occlusion site as a (Corr, Pearle, and Gillis), 741
Dextran loading on left ventricular performance in chronic obstructive pulmonary disease, effect of (Matthay, Ellis, and Steele), 730
Dextroversion of the heart, isolated, with asymmetric septal hypertrophy (Buxton et al.), 785
Diagnosis, electrocardiography, test experience with a machine-processed: the recognition of "normal" and some specific patterns (Burchell and Reed), 773
Diastolic pressure and LV motility, prediction of. P wave terminal force and persisting ST elevations in chronic ischemic heart disease (Forfang and Stake), 297
Difference and measured maps, correlations between the spread of ventricular activation and map patterns of (Toyoshima), 183
Digitalis, cardiac actions of kaliuretics and antikaliuretics without (Walter), 124 (Letter to Editor)
Reply (Seller), 125
Digoxin intoxication in children, hypomagnesemia in relation to (Singh, Dube, and Srivastav), 144
Dinitrate, isosorbide, and nitroglycerin on central circulatory dynamics in coronary artery disease, effects of (Battock, Levitt, and Steele), 455
following experimental coronary occlusion, effect of (Meester and Van Harn), 217
Diphenylhydantoin, isoniazid, and propylene glycol, cardiac effects of (Kirman), 409 (Letter to Editor)
Reply (Zoneraich), 409

Dipyridamole, acetylsalicylic acid, and hydrocortisone on epinephrine-induced myocardial injury in dogs, effects of (Kraikitpanitch et al.), 615
Discrete subaortic stenosis in the Newfoundland dog, pathology and genetics of (Pyle, Patterson, and Chacko), 324
Disease, aortic valve, incidence and morphology of carotid shudders in (Alpert, Vieweg, and Hagan), 435
chronic obstructive pulmonary, effect of dextran loading on left ventricular performance in (Matthay, Ellis, and Steele), 730
coronary artery, effects of isosorbide dinitrate and nitroglycerin on central circulatory dynamics in (Battock, Levitt, and Steele), 455
heart, and risk factors (Bassler), 266 (Letter to Editor)
Reply (Werkö), 266
hypertensive pulmonary vascular, pathogenesis of the two forms of (Hutchins and Ostrow), 797
in children, severe mitral valve (Aryanpur and Shakibi), 543 (Letter to Editor)
Reply (Gotsman), 543
intramyocardial small-vessel, in chronic alcoholism (Factor), 561
primary myocardial, in infants and children, clinical course of (Greenwood, Nadas, and Fyler), 549
right coronary artery, a clue to: the influence of inspiration on angina pectoris (Buda and Levene), 537 (Annot.)
Disopyramide, cardiac effects of (Danillo and Rosen), 532
serum level and arrhythmia conversion (Niarchos), 57
Disorder, etiology of sino-atrial (Sick Sinus Syndrome) (Shaw), 539 (Annot.)
Dissection of the aorta complicating intra-aortic balloon counterpulsation (Biddle, Stewart, and Stuard), 781
Dissociation of effects of propranolol on contraction and epicardial ST segments: propranolol in experimental myocardial ischemia (Bodenheimer, Banka, and Helfant), 481
Doctor, what does the really mean when he says "Hmmm"? (Sacks), 815 (Letter to Editor)
Dog(s) and baboons, comparison of the coronary collateral circulation in after coronary occlusion (Weisse et al.), 193
days, obesity, football, and siriasis: a deadly combination (Barcenas, Hoeffler, and Lie), 237 (Clinical pathologic conference)
effectiveness and hazard of endomyocardial biopsy in: comparison of two methods (Hirota, Khaja, and Abelmann), 767
epinephrine-induced myocardial injury in, effects of acetylsalicylic acid, dipyridamole, and hydrocortisone on (Kraikitpanitch et al.), 615
heart, vascular and cardiac contractile reserve in the with chronic multiple coronary occlusions (Schwarz et al.), 600
Newfoundland, genetics and pathology of discrete subaortic stenosis in (Pyle, Patterson, and Chacko), 324
Droppers, of teaspoons, tablespoons and (Burch), 123 (Annot.)
Drug(s), alpha- and beta-adrenergic, present state of I. The adrenergic receptor (Ahlquist), 661
II. The adrenergic blocking agents (Ahlquist), 804
antiplatelet—a new pharmacologic approach to the prevention of thrombosis (Weiss), 86
in the management of hypertension II (Page, Yager, and Sidd), 114
III (Page, Yager, and Sidd), 252
Surveillance Program, Boston Collaborative, a report from. Clinical use and toxicity of intravenous lidocaine (Pfeifer, Greenblatt, and Koch-Weser), 168
Ductal origins of pulmonary arteries, ventricular septal defect, and solitary aortic trunk (Stone et al.), 506
Duration, QRS, normal, bidirectional tachycardia with (Rothfeld), 231
Dynamics, central circulatory, in coronary artery disease, effects of isosorbide dinitrate and nitroglycerin on (Battock, Levitt, and Steele), 455
circulatory, and ST-segment depression, effect of beta-adrenergic blockade with alprenolol on during exercise in patients with effort angina (Bailey et al.), 416
Dysrhythmias, cardiac, midbrain-induced, effects of hypercapnea and of hypercapnea in combination with hypoxia on (Mauck et al.), 315

E

Early recognition and prevention of complications of central venous catheterization (Williamson), 667 (Annot.)
Echo phenomena, ventricular, characteristics and coexistence of two forms of (Akhtar et al.), 174
Effectiveness and hazard of endomyocardial biopsy in dogs: comparison of two methods (Hirota, Khaja, and Abelmann), 767
Effort angina, effect of beta-adrenergic blockade with alprenolol on ST-segment depression and circulatory dynamics during exercise in patients with (Bailey et al.), 416
Ejection, ventricular performance during (Harrison and Smith), 813 (Letter to Editor)
Reply (Stein and Sabbah), 814
Electrical ventricular defibrillation, transchest (Morgan and McElroy), 674 (Letter to Editor)
Reply (Ewy), 674
Electrocardiogram, adrenergic effects on the QT interval of (Abildskov), 210
P wave of, comparison of left atrial size and pulmonary capillary pressure with (Rubler, Shah, and Moallem), 73
Electrocardiographic (ECG) and constitutional variables, correlation coefficients for (Ishikawa), 152
and VCG changes in experimental hemiblock and bifascicular block (Okuma), 473
manifestations of ischemia; exercise tolerance, and platelet aggregation, effects on: aspirin therapy in angina pectoris (Frishman et al.), 3
Electrocardiography diagnosis, test experience with a machine-processed: the recognition of "normal" and some specific patterns (Burchell and Reed), 773
His bundle, intraventricular trifascicular block verified by (Thomsen, Sterndorff, and Gøtzsche), 497
Elevated arterial pressure and postexertional ST-segment depression in middle-aged women (Kusumi et al.), 576
Endocarditis cases, 24 prosthetic valve and 48 host valve, comparative study of (Quenzer, Edwards, and Levin), 15
non-bacterial thrombotic. Clinicopathologic correlations (Deppisch and Fayemi), 723
Endomyocardial biopsy in dogs, effectiveness and hazard of: comparison of two methods (Hirota, Khaja, and Abelmann), 767
England influenza epidemic, A2, observations on. A clinicopathological study (Verel et al.), 290
Epicardial ST segments and contraction, dissociation of effects (of propranolol) on: propranolol in experimental myocardial ischemia (Bodenheimer, Banka, and Helfant), 481
Epidemic, observations on A2 England influenza. A clinicopathological study (Verel et al.), 290
Epimembranous nephropathy (Salomon, Hsu, and Tchertkoff), 809 (Annot.)
Epinephrine-induced myocardial injury in dogs, effects of acetylsalicylic acid, dipyridamole, and hydrocortisone on (Kraikitpanitch et al.), 615
Erythematosus, systemic lupus, cardiac mechanics, hemodynamics, and coronary blood flow in uncomplicated: lupus cardiomyopathy (Strauer et al.), 715

Essential hypertension, an approach to the treatment of (Vlachakis and Mendlowitz), 750
Etiology of atherosclerotic heart disease, concerning the (Scaff), 267 (Letter to Editor)
Reply (Eskwith), 267
of sino-atrial disorder (Sick Sinus Syndrome) (Shaw), 539 (Annot.)
Evaluating and reporting the results of treadmill exercise testing, method of (Papazoglou), 675 (Letter to Editor)
Evaluation, histochemical, of myocardial preservation by local cooling during anoxia (Viskos et al.), 669 (Annot.)
Exercise, effect of beta-adrenergic blockade with alprenolol on ST-segment depression and circulatory dynamics during, in patients with effort angina (Bailey et al.), 416
-induced ventricular arrhythmias, effect of coronary bypass surgery on (Tilkian et al.), 707
testing, treadmill, method of reporting and evaluating the results of (Papazoglou), 675 (Letter to Editor)
tolerance, platelet aggregation, and electrocardiographic manifestations of ischemia, effects on: aspirin therapy in angina pectoris (Frishman et al.), 3
treadmill, on timing of the heart and arterial sounds and the slope of the brachial arterial pulse wave, effects of (Inagaki, Wassermil, and Rodbard), 283
Experimental hemiblock and bifascicular block, ECG and VCG changes in (Okuma), 473
myocardial ischemia, propranolol in: dissociation of effects on contraction and epicardial ST segments (Bodenheimer, Banka, and Helfant), 481

F

Factors which could affect postextrasystolic potentiation in the human heart, statistical analysis of the different (Palmero and Caeiro), 427
Failure, cardiac, and myocardial oxygen availability in hemorrhagic shock (Lee and Downing), 201
Fallot, tetralogy of, conduction disturbances after total correction of (Sondheimer et al.), 278
Family of the sick, of the (Burch), 405 (Annot.)
Faults of cholesterol metabolism (Crayen), 812 (Letter to Editor)
Reply (Seely), 812
Fibrillation, ventricular, induced by a unipolar implanted pacemaker (cathodal stimulation) (Seipel, Bub, and Loogen), 810 (Annot.)
Flow, coronary blood, cardiac mechanics, and hemodynamics in uncomplicated systemic lupus erythematosus: lupus cardiomyopathy (Strauer et al.), 715
Flutter of left ventricular structures in patients with aortic regurgitation, with special reference to patients with associated mitral stenosis (D'Cruz et al.), 684
Football, obesity, dog days and siriasis: a deadly combination (Barcenas, Hoeffler, and Lie), 237 (Clinical pathologic conference)
Function, myocardial, of the conduction system and (Burch), 809 (Annot.)
sinus node, in man, comparison of the effects of atrial and ventricular stimulation on (Bissett et al.), 459

G

Ganglion blockade, unilateral stellate, effects of on the arrhythmias associated with coronary occlusion (Schwartz, Stone, and Brown), 589
Genetics and pathology of discrete subaortic stenosis in the Newfoundland dog (Pyle, Patterson, and Chacko), 324
Glomerular hemodynamics, renal, in mammals, similarity of (Holt and Rhode), 465
Glucose-insulin-potassium infusion, reduction of hospital mortality rate of acute myocardial infarction with (Rogers et al.), 441
Glycoproteins, serum, in acute myocardial infarction (Jakab et al.), 812 (Letter to Editor)
Green, indocyanine, a source of error in the measurement of: reducing substances in certain heparin preparations (Reiff, Barndt, and Crawford), 542 (Letter to Editor)

H

Hazard and effectiveness of endomyocardial biopsy in dogs: comparison of two methods (Hirota, Khaja, and Abelmann), 767
(health), soup it may be hazardous to your (Neumann), 266 (Letter to Editor)
Health curricula, high school: a neglected medical resource (Mroczek), 271
soup, it may be hazardous to your (Neumann), 266 (Letter to Editor)
Heart and arterial sounds, timing of, and the slope of the brachial arterial pulse wave, effects of treadmill exercise on (Inagaki, Wassermil, and Rodbard), 283
catheterizations, serial, long-term follow-up with: natural history of small atrial septal defects (Andersen et al.), 302
diseases, atherosclerotic, concerning the etiology of (Scaff), 267 (Letter to Editor)
Reply (Eskwith), 267
chronic ischemic, P wave terminal force and persisting ST elevations in. Prediction of LV motility and diastolic pressure (Forfang and Stake), 297
congenital and acquired, real-time observation of cardiac movement and structures in employing high-speed ultrasonocardiotomography (Nishimura et al.), 340
coronary, and risk factors (Bassler), 266 (Letter to Editor)
Reply (Werkö), 266
riboflavin deficiency in infants and children with (Steier, Lopez, and Coopermen), 139
dog, vascular and cardiac contractile reserve in the with chronic multiple coronary occlusions (Schwarz et al.), 600
human, statistical analysis of the different factors which could affect postextrasystolic potentiation in the (Palmero and Caeiro), 427
isolated dextroversion of the with asymmetric septal hypertrophy (Buxton et al.), 785
rate and blood pressure responses during sexual activity in normal males (Nemec, Mansfield, and Kennedy), 274
-to-chest ratio, of the (Burch), 264 (Annot.)
valves, prosthetic, living with. Subsequent noncardiac operations and the risk of thromboembolism or hemorrhage (Katholi, Nolan, and McGuire), 162
Hemiblock, experimental, and bifascicular block, ECG and VCG changes in (Okuma), 473
left anterior, simulating anteroseptal myocardial infarction (Farnham and Shah), 363
Hemodynamic(s), coronary blood flow, and cardiac mechanics in uncomplicated systemic lupus erythematosus: lupus cardiomyopathy (Strauer et al.), 715
effects of steroids in cardiac disease (Gould et al.), 133
renal and systemic, of bupicomide: a new vasodilator (Chrysant et al.), 335
renal glomerular, in mammals, similarity of (Holt and Rhode), 465
Hemorrhage or thromboembolism, subsequent noncardiac operations and the risk of. Living with prosthetic heart valves (Katholi, Nolan, and McGuire), 162
Hemorrhagic shock, myocardial oxygen availability and cardiac failure in (Lee and Downing), 201

Heparin preparations, reducing substances in certain: a source of error in the measurement of indocyanine green (Reiff, Barndt, and Crawford), 542 (Letter to Editor
High school health curricula: a neglected medical resource (Mroczek), 271
His bundle electrocardiography, intraventricular trifascicular block verified by (Thomsen, Sterndorff, and Gøtzsche), 497
nonbranching portion of, conduction disturbances of bundle branches produced by lesions in (Fabregas, Tse, and Han), 356
recordings in a case of complete atrioventricular block combined with pre-excitation syndrome (Seipel et al.), 623
Histochemical evaluation of myocardial preservation by local cooling during anoxia (Viskos et al.), 669 (Annot.)
"Hmmm?"—what does the doctor really mean when he says (Sacks), 815 (Letter to Editor)
Home, coronary care at? (Hampton), 808 (Annot.)
Hospital mortality rate of acute myocardial infarction with glucose-insulin-potassium infusion, reduction of (Rogers et al.), 441
Hospitalization, length of, and rehabilitation after acute myocardial infarction (Miller), 547
Host valve, 48, and 24 prosthetic valve endocarditis cases, comparative study of (Quenzer, Edwards, and Levin), 15
Human heart, statistical analysis of the different factors which could affect postextrasystolic potentiation in the (Palmero and Caeiro), 427
Hydrocortisone, dipyridamole, and acetylsalicylic acid on epinephrine-induced myocardial injury in dogs, effects of (Kraikitpanitch et al.), 615
Hypercapnea in combination with hypoxia and hypercapnea on midbrain-induced cardiac dysrhythmias, effects of (Mauck et al.), 315
and hypoxia in combination, and of, effects of hypercapnea on midbrain-induced cardiac dysrhythmias (Mauck et al.), 315
Hyperemia, reactive: an index of the significance of coronary stenoses (Hillis and Friesinger), 737
Hypertension, drugs in the management of II (Page, Yager, and Sidd), 114
III (Page, Yager, and Sidd), 252
essential, an approach to the treatment of (Vlachakis and Mendlowitz), 750
in childhood: a review (McLain), 634
malfunction of viscosity-receptors (viscoreceptors) as the cause of (Dintenfass), 260 (Annot.)
postoperative: a hazard of abrupt cessation of antihypertensive medication in the preoperative period (Katz, Croneau, and Barash), 79
Hypertensive pulmonary vascular disease, pathogenesis of the two forms of (Hutchins and Ostrow), 797
Hypertrophic subaortic stenosis, idiopathic, associated with cutaneous neurofibromatosis: report of a case (Elliott et al.), 368
Hypertrophy, asymmetric septal, isolated dextroversion of the heart with (Buxton et al.), 785
Hypomagnesemia in relation to digoxin intoxication in children (Singh, Dube, and Srivastav), 144
Hypoxemia and lung water in acute myocardial infarction (Biddle et al.), 692
Hypoxia, acute, effect of on the viscoelastic properties of the myocardium (Little), 609
in combination with hypercapnea and effects of hypercapnea on midbrain-induced cardiac dysrhythmias (Mauck et al.), 315

I

Idiopathic hypertrophic subaortic stenosis associated with cutaneous neurofibromatosis: report of a case (Elliott et al.), 368
Implanted pacemaker, unipolar (cathodal stimulation), ventricular fibrillation induced by a (Seipel, Bub, and Loogen), 810 (Annot.)
Incidence and morphology of carotid shudders in aortic valve disease (Alpert, Vieweg, and Hagan), 435
Index of the significance of coronary stenoses: reactive hyperemia (Hillis and Friesinger), 737
Indocyanine green, a source of error in the measurement of: reducing substances in certain heparin preparations (Reiff, Barndt, and Crawford), 542 (Letter to Editor)
Infants and children, clinical course of primary myocardial disease in (Greenwood, Nadas, and Fyler), 549
with heart disease, riboflavin deficiency in (Steier, Lopez, and Cooperman), 139
Infarct-like lesions of rat myocardium, localization by autoradiography of tritiated isoproterenol in (Milei and Rapaport), 351
Infarction, myocardial, acute, chronic propranolol administration and (Bloch, Beller, and DeSanctis), 121 (Annot.)
hypoxemia and lung water in (Biddle et al.), 692
reduction of hospital mortality rate of with glucose-insulin-potassium infusion (Rogers et al.) 441
rehabilitation and length of hospitalization after (Miller), 547
rupture of interventricular septum in (Longo and Cohen), 81
serum glycoproteins in (Jakab et al.), 812 (Letter to Editor)
temperature and the incidence of in a temperate climate (Freeman, McGlashan, and Loughhead), 405 (Annot.)
and LDH isoenzymes in patients undergoing coronary bypass surgery: an excellent correlation (Mohiuddin et al.), 584
and viral coronary arteritis (Burch and Shewey), 11
anteroseptal, left anterior hemiblock simulating (Farnham and Shah), 363
prognosis of by long-term beta-adrenoceptor blockade, improvement in (Green et al.), 537 (Annot.)
simultaneous occurrence of a ventricular septal defect and mitral insufficiency after (Gowda, Loh, and Roberts), 234
with and without laboratory documentation—one year prognosis (Dussia et al.), 148
subendocardial: what happens later (Genovese et al.), 542 (Letter to Editor)
Influenza epidemic, observations on A2 England. A clinicopathological study (Verel et al.), 290
Infusion, glucose-insulin-potassium, reduction of hospital mortality rate of acute myocardial infarction with (Rogers et al.), 441
Injury, blunt, to the chest in the absence of coronary atherosclerosis, acute coronary occlusion following (Oren, Bar-Shlomo, and Stern), 501
myocardial, in dogs, epinephrine-induced, effects of acetylsalicylic acid, dipyridamole, and hydrocortisone on (Kraikitpanitch et al.), 615
Inspiration on angina pectoris, influence of: a clue to right coronary artery disease (Buda and Levene), 537 (Annot.)
Insufficiency, mitral, and ventricular septal defect after myocardial infarction, simultaneous occurrence of (Gowda, Loh, and Roberts), 234
Insulin-potassium-glucose infusion, reduction of hospital mortality rate of acute myocardial infarction with (Rogers et al.), 441
Interval of the electrocardiogram, QT, adrenergic effects on (Abildskov), 210
Interventricular septum in acute myocardial infarction, rupture of (Longo and Cohen), 81
Intoxication, digoxin, in children, hypomagnesemia in relation to (Singh, Dube, and Srivastav), 144
Intra-aortic balloon counterpulsation, dissection of the aorta complicating (Biddle, Stewart, and Stuard), 781

Intramyocardial small-vessel disease in chronic alcoholism (Factor), 561
Intravenous lidocaine, toxicity and clinical use of. A report from the Boston Collaborative Drug Surveillance Program (Pfeifer, Greenblatt, and Koch-Weser), 168
Intraventricular trifascicular block verified by His bundle electrocardiography (Thomsen, Sterndorff, and Gøtzsche), 497
Ischemia, electrocardiographic manifestations of, exercise tolerance, and platelet aggregation, effects on: aspirin therapy in angina pectoris (Frishman et al.), 3
experimental myocardial, propranolol in: dissociation of effects on contraction and epicardial ST segments (Bodenheimer, Banka, and Helfant), 481
Ischemic heart disease, P wave terminal force and persisting ST elevations in chronic. Prediction of LV motility and diastolic pressure (Forfang and Stake), 297
Isoenzymes, LDH, and myocardial infarction in patients undergoing coronary bypass surgery: an excellent correlation (Mohiuddin et al.), 584
Isolated dextroversion of the heart with asymmetric septal hypertrophy (Buxton et al.), 785
Isoniazid, diphenylhydantoin, and propylene glycol, cardiac effects of (Kirman), 409 (Letter to Editor)
Reply (Zoneraich), 409
Isoproterenol, tritiated, localization by autoradiography of in "infarct-like" lesions of rat myocardium (Milei and Rapaport), 351
Isosorbide dinitrate and nitroglycerin on central circulatory dynamics in coronary artery disease, effects of (Battock, Levitt, and Steele), 455
following experimental coronary occlusion, effect of (Meester and Van Harn), 217

K

Kaliuretics and antikaliuretics without digitalis, cardiac actions of (Walter), 124 (Letter to Editor)
Reply (Seller), 125

L

Laboratory documentation, myocardial infarction with and without—one year prognosis (Dussia et al.), 148
LAD-RBBB, reevaluation of prognosis of patients with (Kulbertus), 665 (Annot.)
Later, what happens: subendocardial infarction (Genovese et al.), 542 (Letter to Editor)
LDH isoenzymes and myocardial infarction in patients undergoing coronary bypass surgery: an excellent correlation (Mohiuddin et al.), 584
Leaflet of the mitral valve, prolapsing posterior, effect of pregnancy on the midsystolic click and murmur of (Haas), 407 (Annot.)
Left atrial size and pulmonary capillary pressure, comparison of with P wave of electrocardiogram (Rubler, Shah, and Moallem), 73
Left ventricular (LV) motility and diastolic pressure, prediction of. P wave terminal force and persisting ST elevations in chronic ischemic heart disease (Forfang and Stake), 297
performance in chronic obstructive pulmonary disease, effect of dextran loading on (Matthay, Ellis, and Steele), 730
structures, flutter of, in patients with aortic regurgitation, with special reference to patients with associated mitral stenosis (D'Cruz et al.), 684
Lesions in nonbranching portion of His bundle, conduction disturbances of bundle branches produced by (Fabregas, Tse, and Han), 356
of rat myocardium, "infarct-like," localization by autoradiography of tritiated isoproterenol in (Milei and Rapaport), 351
Lidocaine, intravenous, toxicity and clinical use of. A report from the Boston Collaborative Drug Surveillance Program (Pfeifer, Greenblatt, and Koch-Weser), 168
Living with prosthetic heart valves. Subsequent noncardiac operations and the risk of thromboembolism or hemorrhage (Katholi, Nolan, and McGuire), 162
Loading, dextran, effect of on left ventricular performance in chronic obstructive pulmonary disease (Matthay, Ellis, and Steele), 730
Local cooling during anoxia, histochemical evaluation of myocardial preservation by (Viskos et al.), 669 (Annot.)
Long-term beta-adrenoceptor blockade, improvement in prognosis of myocardial infarction by (Green et al.), 537 (Annot.)
Lung water and hypoxemia in acute myocardial infarction (Biddle et al.), 692
Lupus cardiomyopathy: cardiac mechanics, hemodynamics, and coronary blood flow in uncomplicated systemic lupus erythematosus (Strauer et al.), 715
erythematosus, systemic, cardiac mechanics, hemodynamics, and coronary blood flow in uncomplicated: lupus cardiomyopathy (Strauer et al.), 715

M

Machine-processed electrocardiography diagnosis, test experience with a: the recognition of "normal" and some specific patterns (Burchell and Reed), 773
Maintenance therapy with a new retard tablet preparation of procainamide (Hansteen et al.), 47
Malfunction of viscosity-receptors (viscoreceptors) as the cause of hypertension (Dintenfass), 260 (Annot.)
Mammals, similarity of renal glomerular hemodynamics in (Holt and Rhode), 465
Management of hypertension, drugs in the II (Page, Yager, and Sidd), 114
III (Page, Yager, and Sidd), 252
of the postoperative cardiovascular surgical patient (Kouchoukos and Karp), 513
Map(s), measured and difference, correlations between the spread of ventricular activation and map patterns of (Toyoshima), 183
patterns of measured and difference maps and the spread of ventricular activation, correlations between (Toyoshima), 183
Measured and difference maps, correlations between the spread of ventricular activation and map patterns of (Toyoshima), 183
Measurement of indocyanine green, source of error in: reducing substances in certain heparin preparations (Reiff, Barndt, and Crawford), 542 (Letter to Editor)
Mechanics, cardiac, hemodynamics, and coronary blood flow in uncomplicated systemic lupus erythematosus: lupus cardiomyopathy (Strauer et al), 715
Medical resource, a neglected: high school health curricula (Mroczek), 271
Medication, antihypertensive, abrupt cessation of in the preoperative period: postoperative hypertension, a hazard of (Katz, Croneau, and Barash), 79
Metabolism, cholesterol, faults of (Crayen), 812 (Letter to Editor)
Reply (Seely), 812
Method of reporting and evaluating the results of treadmill exercise testing (Papazoglou), 675 (Letter to Editor)
Midbrain-induced cardiac dysrhythmias, effects of hypercapnea and of hypercapnea in combination with hypoxia on (Mauck et al.), 315
Midsystolic click and murmur of the prolapsing posterior leaflet of the mitral valve, effect of pregnancy on (Haas), 407 (Annot.)
Mitral and aortic valve prostheses, clinical evaluation of (Burch and Giles), 245
insufficiency and ventricular septal defect after myocardial infarction, simultaneous occurrence of (Gowda, Loh, and Roberts), 234
stenosis, associated, flutter of left ventricular structures in patients with aortic regurgitation, with special reference to patients with (D'Cruz et al.), 684

Mitral—continued
valve disease in children, severe (Aryanpur and Shakibi), 543 (Letter to Editor)
Reply (Gotsman), 543
effect of pregnancy on the midsystolic click and murmur of the prolapsing posterior leaflet of (Haas), 407 (Annot.)
prolapse: a plea for unanimity (Abrams), 413
Morphology and incidence of carotid shudders in aortic valve disease (Alpert, Vieweg, and Hagan), 435
Mortality rate, hospital, of acute myocardial infarction with glucose-insulin-potassium infusion, reduction of (Rogers et al.), 441
Motility, LV, and diastolic pressure, prediction of. P wave terminal force and persisting ST elevations in chronic ischemic heart disease (Forfang and Stake), 297
Murmur and midsystolic click of the prolapsing posterior leaflet of the mitral valve, effect of pregnancy on (Haas), 407 (Annot.)
Myocardial disease, primary, in infants and children, clinical course of (Greenwood, Nadas, and Fyler), 549
function, of the conduction system and (Burch), 809 (Annot.)
infarction, acute, chronic propranolol administration and (Bloch, Beller, and DeSanctis), 121 (Annot.)
hypoxemia and lung water in (Biddle et al.), 692
reduction of hospital mortality rate of with glucose-insulin-potassium infusion (Rogers et al.), 441
rehabilitation and length of hospitalization after (Miller), 547
rupture, of interventricular septum in (Longo and Cohen), 81
serum glycoproteins in (Jakab et al.), 812 (Letter to Editor)
temperature and the incidence of in a temperate climate (Freeman, McGlashan, and Loughhead), 405 (Annot.)
and LDH isoensymes in patients undergoing coronary bypass surgery: an excellent correlation (Mohiuddin et al.), 584
and viral coronary arteritis (Burch and Shewey), 11
anteroseptal, left anterior hemiblock simulating (Farnham and Shah), 363
prognosis of by long-term beta-adrenoceptor blockade, improvement in (Green et al.), 537 (Annot.)
simultaneous occurrence of a ventricular septal defect and mitral insufficiency after (Gowda, Loh, and Roberts), 234
with and without laboratory documentation—one year prognosis (Dussia et al.), 148
injury in dogs, epinephrine-induced, effects of acetylsalicylic acid, dipyridamole, and hydrocortisone on (Kraikitpanitch et al.), 615
ischemia, experimental, propranolol in: dissociation of effects on contraction and epicardial ST segments (Bodenheimer, Banka, and Helfant), 481
oxygen availability and cardiac failure in hemorrhagic shock (Lee and Downing), 201
preservation by local cooling during anoxia, histochemical evaluation of (Viskos et al.), 669 (Annot.)
Myocardium, rat, "infarct-like" lesions of, localization by autoradiography of tritiated isoproterenol in (Milei and Rapaport), 351
viscoelastic properties of the, effect of acute hypoxia on the (Little), 609
Myxoma, right ventricular, complication of (Zager), 673 (Letter to Editor)
Reply (Snyder), 673
the phonocardiogram in (Levisman), 673 (Letter to Editor)
Reply (Snyder), 673

N

National Cooperative Study, from a. Comparative analysis of pulmonary perfusion scans with pulmonary angiograms (Bell and Simon), 700
Nephropathy, epimembranous (Salomon, Hsu, and Tchertkoff), 809 (Annot.)
Neurofibromatosis, cutaneous, idiopathic hypertrophic subaortic stenosis associated with: report of a case (Elliott et al.), 368
Newfoundland dog, genetics and pathology of discrete subaortic stenosis in the (Pyle, Patterson, and Chacko), 324
Nitroglycerin and isosorbide dinitrate on central circulatory dynamics in coronary artery disease, effects of (Battock, Levitt, and Steele), 455
Node function, sinus, in man, comparison of the effects of atrial and ventricular stimulation on (Bissett et al.), 459 (Experimental and laboratory reports)
Non-bacterial thrombotic endocarditis. Clinicopathologic correlations (Deppisch and Fayemi), 723
Nonbranching portion of His bundle, conduction disturbances of bundle branches produced by lesions in (Fabregas, Tse, and Han), 356
Noncardiac operations, subsequent, and the risk of thromboembolism or hemorrhage. Living with prosthetic heart valves (Katholi, Nolan, and McGuire), 162
"Normal", recognition of and some specific patterns: a test experience with a machine-processed electrocardiography diagnosis (Burchell and Reed), 773
Now the treadmill! (*Dangers of the treadmill*) (Burch), 671 (Annot.)
Nutrition, optimal, whither (Walker, Walker, and Richardson), 403 (Annot.)

O

Obesity, football, dog days and siriasis: a deadly combination (Barcenas, Hoeffler, and Lie), 237 (Clinical pathologic conference)
Obstructive pulmonary disease, chronic, effect of dextran loading on left ventricular performance in (Matthay, Ellis, and Steele), 730
Occlusion(s), acute coronary, following blunt injury to the chest in the absence of coronary atherosclerosis (Oren, Bar-Shlomo, and Stern), 501
coronary, arrhythmias associated with, effects of unilateral stellate ganglion blockade on the (Schwartz, Stone, and Brown), 589
artery, and release, differing mechanisms for ventricular vulnerability during (Corbalan, Verrier, and Lown), 223
chronic multiple, vascular and cardiac contractile reserve in the dog heart with (Schwarz et al.), 600
comparison of the coronary collateral circulation in dogs and baboons after (Weisse et al.), 193
experimental, effect of isosorbide dinitrate following (Meester and Van Harn), 217
site, coronary, as a determinant of the cardiac rhythm effects of atropine and vagotomy (Corr, Pearle, and Gillis), 741
Of teaspoons, tablespoons and droppers (Burch), 123 (Annot.)
the cardiac work-up (Burch), 540 (Annot.)
the conduction system and myocardial function (Burch), 809 (Annot.)
the family of the sick (Burch), 405 (Annot.)
the heart-to-chest ratio (Burch), 264 (Annot.)
venture research (Burch), 681
Operations, noncardiac, subsequent, and the risk of thromboembolism or hemorrhage. Living with prosthetic heart valves (Katholi, Nolan, and McGuire), 162
Optimal nutrition, whither (Walker, Walker, and Richardson), 403 (Annot.)
Oral contraceptives, blood pressure in women taking (Weir), 119 (Annot.)
Origins of pulmonary arteries, ductal, ventricular septal defect, and solitary aortic trunk (Stone et al.), 506
Oxygen availability, myocardial, and cardiac failure in hemorrhagic shock (Lee and Downing), 201

P

Pacemaker, unipolar implanted (cathodal stimulation), ventricular fibrillation induced by a (Seipel, Bub, and Loogen), 810 (Annot.)
Paradoxical pulse—revisited (Reeve, Reeve, and Lin), 120 (Annot.)
Pathogenesis of the two forms of hypertensive pulmonary vascular disease (Hutchins and Ostrow), 797
Pathologic, angiocardiographic, and clinical findings in 100 patients. Truncus Arteriosus Communis (Calder et al.), 23
Pathology and genetics of discrete subaortic stenosis in the Newfoundland dog (Pyle, Patterson, and Chacko), 324
Patterns, map, of measured and difference maps, and the spread of ventricular activation, correlations between (Toyoshima), 183
recognition of "normal" and some specific: a test experience with a machine-processed electrocardiography diagnosis (Burchell and Reed), 773
Pectoris, angina, influence of inspiration on: a clue to right coronary artery disease (Buda and Levene), 537 (Annot.)
unstable (Cairns, Fantus, and Klassen), 373
Performance, ventricular, during ejection (Harrison and Smith), 813 (Letter to Editor)
Reply (Stein and Sabbah), 814
Perfusion scans, pulmonary, with pulmonary angiograms, comparative analysis of. From a National Cooperative Study (Bell and Simon), 700
Pericarditis, acute bacterial (Eyer), 125 (Letter to Editor)
Reply (Perry), 125
Persistent truncus arteriosus. A comment (Edwards), 1
Pharmacologic approach to the prevention of thrombosis with antiplatelet drugs, a new (Weiss), 86
Phentolamine (Gould and Reddy), 397
Phonocardiogram in right ventricular myxoma, the (Levisman), 673 (Letter to Editor)
Reply (Snyder), 673
Platelet aggregation, exercise tolerance, and electrocardiographic manifestations of ischemia, effects on: aspirin therapy in angina pectoris (Frishman et al.), 3
Posterior leaflet of the mitral valve, prolapsing, effect of pregnancy on the midsystolic click and murmur of (Haas), 407 (Annot.)
Postextrasystolic potentiation in the human heart, statistical analysis of the different factors which could affect (Palmero and Caeiro), 427
Postoperative cardiovascular surgical patient, management of the (Kouchoukos and Karp), 513
hypertension: a hazard of abrupt cessation of antihypertensive medication in the preoperative period (Katz, Croneau, and Barash), 79
Potassium canrenoate in man, antiarrhythmic activity of (Yeh, Chiang, and Sung), 308
-glucose-insulin infusion, reduction of hospital mortality rate of acute myocardial infarction with (Rogers et al.), 441
Potentiation, postextrasystolic, in the human heart, statistical analysis of the different factors which could affect (Palmero and Caeiro), 427
Precordial QRS complex, computer simulation of: effects of simulated changes in ventricular wall thickness and volume (Salu and Marcus), 758
Pre-excitation syndrome, His bundle recordings in a case of complete atrioventricular block combined with (Seipel et al.), 623
Pregnancy on the midsystolic click and murmur of the prolapsing posterior leaflet of the mitral valve, effect of (Haas), 407 (Annot.)
Preoperative period, postoperative hypertension: a hazard of abrupt cessation of antihypertensive medication in the (Katz, Croneau, and Barash), 79
Present state of alpha- and beta-adrenergic drugs I. The adrenergic receptor (Ahlquist), 661
II. The adrenergic blocking agents (Ahlquist), 804
Preservation, myocardial, by local cooling during anoxia, histochemical evaluation of (Viskos et al.), 669 (Annot.)
Pressure, blood, and heart rate responses during sexual activity in normal males (Nemec, Mansfield, and Kennedy), 274
in women taking oral contraceptives (Weir), 119 (Annot.)
diastolic, and LV motility, prediction of. P wave terminal force and persisting ST elevations in chronic ischemic heart disease (Forfang and Stake), 297
pulmonary capillary, comparison of left atrial size and with P wave of electrocardiogram (Rubler, Shah, and Moallem), 73
Prevention and early recognition of complications of central venous catheterization (Williamson), 667 (Annot.)
of thrombosis, a new pharmacologic approach to with antiplatelet drugs (Weiss), 86
Primary myocardial disease in infants and children, clinical course of (Greenwood, Nadas, and Fyler), 549
Procainamide, maintenance therapy with a new retard tablet preparation of (Hansteen et al.), 47
Prognosis of myocardial infarction by long-term beta-adrenoceptor blockade, improvement in (Green et al.), 537 (Annot.)
reevaluation of, of patients with LAD-RBBB (Kulbertus), 665 (Annot.)
Prolapse, mitral valve: a plea for unanimity (Abrams), 413
Prolapsing posterior leaflet of the mitral valve, effect of pregnancy on the midsystolic click and murmur of (Haas), 407 (Annot.)
Propranolol administration, chronic, and acute myocardial infarction (Bloch, Beller, and DeSanctis), 121 (Annot.)
in experimental myocardial ischemia: dissociation of effects on contraction and epicardial ST segments (Bodenheimer, Banka, and Helfant), 481
Propylene glycol, diphenylhydantoin, and isoniazid, cardiac effects of (Kirman), 409 (Letter to Editor)
Reply (Zoneraich), 409
Prostheses, valve, aortic and mitral, clinical evaluation of (Burch and Giles), 245
Prosthetic heart valves, living with. Subsequent noncardiac operations and the risk of thromboembolism or hemorrhage (Katholi, Nolan, and McGuire), 162
valve endocarditis cases, 24, and 48 host valve endocarditis cases, comparative study of (Quenzer, Edwards, and Levin), 15
Protocols for maximal treadmill stress testing, comparative analysis of four (Pollock et al.), 39
Pulmonary angiograms, comparative analysis of pulmonary perfusion scans with. From a National Cooperative Study (Bell and Simon), 700
arteries, ductal origins of, ventricular septal defect, solitary aortic trunk, and (Stone et al.), 506
capillary pressure, comparison of left atrial size and with P wave of electrocardiogram (Rubler, Shah, and Moallem), 73
disease, chronic obstructive, effect of dextran loading on left ventricular performance in (Matthay, Ellis, and Steele), 730
perfusion scans with pulmonary angiograms, comparative analysis of. From a National Cooperative Study (Bell and Simon), 700
vascular disease, hypertensive, pathogenesis of the two forms of (Hutchins and Ostrow), 797
resistance, effects of increased blood viscosity on (Nihill, McNamara, and Vick), 65
venous connection, total anomalous (TAPVC) vital statistics (Bharati), 410 (Letter to Editor)
Reply (Van Praagh), 410
Pulse, paradoxical—revisited (Reeve, Reeve, and Lin), 120 (Annot.)
wave, slope of brachial arterial, effects of treadmill exercise on timing of the heart and arterial sounds, and (Inagaki, Wassermil, and Rodbard), 283

P wave of electrocardiogram, comparison of left atrial size and pulmonary capillary pressure with (Rubler, Shah, and Moallem), 73
terminal force and persisting ST elevations in chronic ischemic heart disease. Prediction of LV motility and diastolic pressure (Forfang and Stake), 297

Q

QRS complex, precordial, computer simulation of: effects of simulated changes in ventricular wall thickness and volume (Salu and Marcus), 758
duration, normal, bidirectional tachycardia with (Rothfeld), 231
QT interval of the electrocardiogram, adrenergic effects on (Abildskov), 210

R

Rat myocardium, "infarct-like" lesions of, localization by autoradiography of tritiated isoproterenol in (Milei and Rapaport), 351
Ratio, of the heart-to-chest (Burch), 264 (Annot.)
Reactive hyperemia: an index of the significance of coronary stenoses (Hillis and Friesinger), 737
Real-time observation of cardiac movement and structures in congenital and acquired heart diseases employing high-speed ultrasonocardiotomography (Nishimura et al.), 340
Receptor, the adrenergic. Present state of alpha- and beta-adrenergic drugs I. (Ahlquist), 661
Recognition, early, and prevention of complications of central venous catheterization (Williamson), 667 (Annot.)
of "normal" and some specific patterns (in) test experience with a machine-processed electrocardiography diagnosis (Burchell and Reed), 773
Recordings, His bundle, in a case of complete atrioventricular block combined with pre-excitation syndrome (Seipel et al.), 623
Reducing substances in certain heparin preparations: a source of error in the measurement of indocyanine green (Reiff, Barndt, and Crawford), 542 (Letter to Editor)
Reduction of hospital mortality rate of acute myocardial infarction with glucose-insulin-potassium infusion (Rogers et al.), 441
Reevaluation of the prognosis of patients with LAD-RBBB (Kulbertus), 665 (Annot.)
Regurgitation, aortic, flutter of left ventricular structures in patients with, with special reference to patients with associated mitral stenosis (D'Cruz et al.), 684
Rehabilitation and length of hospitalization after acute myocardial infarction (Miller), 547
Release, coronary artery, and occlusion, differing mechanisms for ventricular vulnerability during (Corbalan, Verrier, and Lown), 223
Renal and systemic hemodynamic effects of bupicomide: a new vasodilator (Chrysant et al.), 335
glomerular hemodynamics in mammals, similarity of (Holt and Rhode), 465
Reporting and evaluating the results of treadmill exercise testing, method of (Papazoglou), 675 (Letter to Editor)
Research, of venture (Burch), 681
Reserve, vascular and cardiac contractile, in the dog heart with chronic multiple coronary occlusions (Schwarz et al.), 600
Resistance, pulmonary vascular, effects of increased blood viscosity on (Nihill, McNamara, and Vick), 65
Resource, medical, a neglected: high school health curricula (Mroczek), 271
Retard tablet preparation of procainamide, maintenance therapy with a new (Hansteen et al.), 47
Reviewers, acknowledgment to, 679
Rhythm effects of atropine and vagotomy, cardiac, coronary occlusion site as a determinant of the (Corr, Pearle, and Gillis), 741
Riboflavin deficiency in infants and children with heart disease (Steier, Lopez, and Cooperman), 139
Risk factors and coronary heart disease (Bassler), 266 (Letter to Editor)
Reply (Werkö), 266
Rupture of interventricular septum in acute myocardial infarction (Longo and Cohen), 81

S

Scans, pulmonary perfusion, comparative analysis of with pulmonary angiograms. From a National Cooperative Study (Bell and Simon), 700
Septal defect(s), small atrial, natural history of: long-term follow-up with serial heart catheterizations (Andersen et al.), 302
ventricular, and mitral insufficiency after myocardial infarction, simultaneous occurrence of (Gowda, Loh, and Roberts), 234
solitary aortic trunk, and ductal origins of pulmonary arteries (Stone et al.), 506
hypertrophy, asymmetric, isolated dextroversion of the heart with (Buxton et al.), 785
Septum, interventricular, in acute myocardial infarction, rupture of (Longo and Cohen), 81
Serial heart catheterizations, long-term follow-up with: natural history of small atrial septal defects (Andersen et al.), 302
Serum glycoproteins in acute myocardial infarction (Jakab et al.), 812 (Letter to Editor)
level and arrhythmia conversion: Disopyramide (Niarchos), 57
Severe mitral valve disease in children (Aryanpur and Shakibi), 543 (Letter to Editor)
Reply (Gotsman), 543
Sexual activity in normal males, heart rate and blood pressure responses during (Nemec, Mansfield, and Kennedy), 274
Shock, cardiogenic, current concepts on mechanisms and treatment of (Luz, Weil, and Shubin), 103
hemorrhagic, myocardial oxygen availability and cardiac failure in (Lee and Downing), 201
Shudders, carotid, in aortic valve disease, incidence and morphology of (Alpert, Vieweg, and Hagan), 435
Sick, of the family of the (Burch), 405 (Annot.)
Sinus Syndrome (sino-atrial disorder), etiology of (Shaw), 539 (Annot.)
the (Scarpa), 648
Significance of coronary stenoses, index of: reactive hyperemia (Hillis and Friesinger), 737
Simulated changes in ventricular wall thickness and volume, effects of: computer simulation of the precordial QRS complex (Salu and Marcus), 758
Simulation, computer, of the precordial QRS complex: effects of simulated changes in ventricular wall thickness and volume (Salu and Marcus), 758
Simultaneous occurrence of a ventricular septal defect and mitral insufficiency after myocardial infarction (Gowda, Loh, and Roberts), 234
Sino-atrial disorder (Sick Sinus Syndrome), etiology of (Shaw), 539 (Annot.)
Sinus node function in man, comparison of the effects of atrial and ventricular stimulation on (Bissett et al.), 459
Syndrome, Sick (sino-atrial disorder), etiology of (Shaw), 539 (Annot.)
the sick (Scarpa), 648
Siriasis, obesity, football, dog days and: a deadly combination (Barcenas, Hoeffler, and Lie), 237 (Clinical pathologic conference)
Slope of brachial arterial pulse wave, effects of treadmill exercise on timing of the heart and arterial sounds, and (Inagaki, Wassermil, and Rodbard), 283

Small-vessel disease, intramyocardial, in chronic alcoholism (Factor), 561
Solitary aortic trunk, ventricular septal defect, and ductal origins of pulmonary arteries (Stone et al.), 506
Sounds, arterial, and heart, timing of, and the slope of the brachial arterial pulse wave, effects of treadmill exercise on (Inagaki, Wassermil, and Rodbard), 283
Soup? It may be hazardous to your health (Neumann), 266 (Letter to Editor)
Specialization—another tiger by the tail (Duke), 265 (Annot.)
Spontaneous cardiac tamponade due to sternotomy wire suture (Mimbs and Weiss), 630
ST elevations, persisting, and P wave terminal force in chronic ischemic heart disease. Prediction of LV motility and diastolic pressure (Forfang and Stake), 297
-segment(s) depression and circulatory dynamics, effect of beta-adrenergic blockade with alprenolol on during exercise in patients with effort angina (Bailey et al.), 416
epicardial, and contraction, dissociation of effects (of propranolol) on: propranolol in experimental myocardial ischemia (Bodenheimer, Banka, and Helfant), 481
State of alpha- and beta-adrenergic drugs, present I. The adrenergic receptor (Ahlquist), 661
II. The adrenergic blocking agents (Ahlquist), 804
Statistical analysis of the different factors which could affect postextrasystolic potentiation in the human heart (Palmero and Caeiro), 427
Statistics, vital, TAPVC (total anomalous pulmonary venous connection) (Bharati), 410 (Letter to Editor)
Reply (Van Praagh), 410
Stellate ganglion blockade, unilateral, effects of on the arrhythmias associated with coronary occlusion (Schwartz, Stone, and Brown), 589
Stenoses, coronary, reactive hyperemia, an index of the significance of (Hillis and Friesinger), 737
Stenosis, associated mitral, flutter of left ventricular structures in patients with aortic regurgitation, with special reference to patients with (D'Cruz et al.), 684
discrete subaortic, in the Newfoundland dog, pathology and genetics of (Pyle, Patterson, and Chacko), 324
subaortic, idiopathic hypertrophic, associated with cutaneous neurofibromatosis: report of a case (Elliott et al.), 368
Steroids in cardiac disease, hemodynamic effects of (Gould et al.), 133
Sternotomy wire suture, spontaneous cardiac tamponade due to (Mimbs and Weiss), 630
Stimulation, atrial and ventricular, comparison of the effects of on sinus node function in man (Bissett et al.), 459
cathodal—ventricular fibrillation induced by a unipolar implanted pacemaker (Seipel, Bub, and Loogen), 810 (Annot.)
Stress testing, treadmill, comparative analysis of four protocols for maximal (Pollock et al.), 39
Structures, left ventricular, flutter of, in patients with aortic regurgitation, with special reference to patients with associated mitral stenosis (D'Cruz et al.), 684
Study, National Cooperative, from a. Comparative analysis of pulmonary perfusion scans with pulmonary angiograms (Bell and Simon), 700
Subaortic stenosis, discrete, in the Newfoundland dog, pathology and genetics of (Pyle, Patterson, and Chacko), 324
idiopathic hypertrophic, associated with cutaneous neurofibromatosis: report of a case (Elliott et al.), 368
Subendocardial infarction: what happens later (Genovese et al.), 542 (Letter to Editor)
Surgery, coronary bypass, effect of on exercise-induced ventricular arrhythmias (Tilkian et al.), 707
Surgery, coronary bypass—continued
LDH isoenzymes and myocardial infarction in patients undergoing: an excellent correlation (Mohiuddin et al.), 584
Surgical patient, management of the postoperative cardiovascular surgical (Kouchoukos and Karp), 513
Suture, sternotomy wire, spontaneous cardiac tamponade due to (Mimbs and Weiss), 630
"Swan-Ganz" catheterization, transient right bundle branch block with (Luck and Engel), 263 (Annot.)
Syndrome, pre-excitation, His bundle recordings in a case of complete atrioventricular block combined with (Seipel et al.), 623
Sick Sinus (sino-atrial disorder), etiology of (Shaw), 539 (Annot.)
the sick sinus (Scarpa), 648
System, conduction, and myocardial function, of the (Burch), 809 (Annot.)
Systemic and renal hemodynamic effects of bupicomide: a new vasodilator (Chrysant et al.), 335
lupus erythematosus, cardiac mechanics, hemodynamics, and coronary blood flow in uncomplicated: lupus cardiomyopathy (Strauer et al.), 715

T

Tablespoons, teaspoons, and droppers, of (Burch), 123 (Annot.)
Tablet preparation of procainamide, retard, maintenance therapy with a new (Hansteen et al.), 47
TAC, (Truncus Arteriosus Communis), classification of (Van Praagh), 129
Tachycardia, bidirectional, with normal QRS duration (Rothfeld), 231
Tamponade, spontaneous cardiac, due to sternotomy wire suture (Mimbs and Weiss), 630
TAPVC (total anomalous pulmonary venous connection) vital statistics (Bharati), 410 (Letter to Editor)
Reply (Van Praagh), 410
Teaspoons, tablespoons and droppers, of (Burch), 123 (Annot.)
Temperate climate, temperature and incidence of acute myocardial infarction in a (Freeman, McGlashan, and Loughhead), 405 (Annot.)
Temperature and incidence of acute myocardial infarction in a temperate climate (Freeman, McGlashan, and Loughhead), 405 (Annot.)
Terminal force, P wave, and persisting ST elevations in chronic ischemic heart disease. Prediction of LV motility and diastolic pressure (Forfang and Stake), 297
Test experience with a machine-processed electrocardiography diagnosis: the recognition of "normal" and some specific patterns (Burchell and Reed), 773
Testing, treadmill exercise, method of reporting and evaluating the results of (Papazoglou), 675 (Letter to Editor)
stress, comparative analysis of four protocols for maximal (Pollock et al.), 39
Tetralogy of Fallot, conduction disturbances after total correction of (Sondheimer et al.), 278
Therapy in angina pectoris, aspirin: effects on platelet aggregation, exercise tolerance, and electrocardiographic manifestations of ischemia (Frishman et al.), 3
maintenance, with a new retard tablet preparation of procainamide (Hansteen et al.), 47
Thromboembolism or hemorrhage, subsequent noncardiac operations and the risk of. Living with prosthetic heart valves (Katholi, Nolan, and McGuire), 162
Thrombosis, prevention of, a new pharmacologic approach to with antiplatelet drugs (Weiss), 86
Thrombotic endocarditis, non-bacterial. Clinicopathologic correlations (Deppisch and Fayemi), 723
Tiger by the tail, another—specialization (Duke), 265 (Annot.)

Timing of the heart and arterial sounds and the slope of the brachial arterial pulse wave, effects of treadmill exercise on (Inagaki, Wassermil, and Rodbard), 283
Tolerance, exercise, platelet aggregation, and electrocardiographic manifestations of ischemia, effects on: aspirin therapy in angina pectoris (Frishman et al.), 3
Total anomalous pulmonary venous connection (TAPVC) vital statistics (Bharati), 410 (Letter to Editor)
Reply (Van Praagh), 410
correction of tetralogy of Fallot, conduction disturbances after (Sondheimer et al.), 278
Toxicity and clinical use of intravenous lidocaine. A report from the Boston Collaborative Drug Surveillance Program (Pfeifer, Greenblatt, and Koch-Weser), 168
Transchest electrical ventricular defibrillation (Morgan and McElroy), 674 (Letter to Editor)
Reply (Ewy), 674
Transient right bundle branch block with "Swan-Ganz" catheterization (Luck and Engel), 263 (Annot.)
Trauma, cardiac (Symbas), 387
Treadmill exercise on timing of the heart and arterial sounds and the slope of the brachial arterial pulse wave, effects of (Inagaki, Wassermil, and Rodbard), 283
testing, method of reporting and evaluating the results of (Papazoglou), 675 (Letter to Editor)
now the! (Burch), 671 (Annot.)
stress testing, comparative analysis of four protocols for maximal (Pollock et al.), 39
Treatment of essential hypertension, an approach to the (Vlachakis and Mendlowitz), 750
Trifascicular block, intraventricular, verified by His bundle electrocardiography (Thomsen, Sterndorff, and Gøtzsche), 497
Tritiated isoproterenol, localization by autoradiography of in "infarct-like" lesions of rat myocardium (Milei and Rapaport), 351
Truncus Arteriosus Communis. Clinical, angiocardiographic, and pathologic findings in 100 patients (Calder et al.), 23
(TAC), classification of (Van Praagh), 129
persistent. A comment (Edwards), 1
Trunk, solitary aortic, ventricular septal defect, and ductal origins of pulmonary arteries (Stone et al.), 506
Two forms of hypertensive pulmonary vascular disease, pathogenesis of the (Hutchins and Ostrow), 797
of ventricular echo phenomena, characteristics and coexistence of (Akhtar et al.), 174

U

Ultrasonocardiotomography, real-time observation of cardiac movement and structures in congenital and acquired heart diseases employing high-speed (Nishimura et al.), 340
Unanimity, a plea for: mitral valve prolapse (Abrams), 413
Unilateral stellate ganglion blockade on the arrhythmias associated with coronary occlusion, effects of (Schwartz, Stone, and Brown), 589
Unipolar implanted pacemaker (cathodal stimulation), ventricular fibrillation induced by a (Seipel, Bub, and Loogen), 810 (Annot.)

V

Vagotomy and atropine, coronary occlusion site as a determinant of the cardiac rhythm effects of (Corr, Pearle, and Gillis), 741
Valve(s) disease, aortic, incidence and morphology of carotid shudders in (Alpert, Vieweg, and Hagan), 435
in children, severe mitral (Aryanpur and Shakibi), 543 (Letter to Editor)
Reply (Gotsman), 543
Valve(s)—continued
host, 48, and 24 prosthetic valve endocarditis cases, comparative study of (Quenzer, Edwards, and Levin), 15
mitral, effect of pregnancy on the midsystolic click and murmur of the prolapsing posterior leaflet of (Haas), 407 (Annot.)
prolapse, mitral: a plea for unanimity (Abrams), 413
prostheses, aortic and mitral, clinical evaluation of (Burch and Giles), 245
prosthetic heart, living with. Subsequent noncardiac operations and the risk of thromboembolism or hemorrhage (Katholi, Nolan, and McGuire), 162
24, and 48 host valve endocarditis cases, comparative study of (Quenzer, Edwards, and Levin), 15
Variables, correlation coefficients for electrocardiographic and constitutional (Ishikawa), 152
Vascular and cardiac contractile reserve in the dog heart with chronic multiple coronary occlusions (Schwarz et al.), 600
disease, hypertensive pulmonary, pathogenesis of the two forms of (Hutchins and Ostrow), 797
resistance, pulmonary, effects of increased blood viscosity on (Nihill, McNamara, and Vick), 65
Vasodilator, a new: systemic and renal hemodynamic effects of bupicomide (Chrysant et al.), 335
VCG and ECG changes in experimental hemiblock and bifascicular block (Okuma), 473
Venous catheterization, central, prevention and early recognition of complications of (Williamson), 667 (Annot.)
connection, total anomalous pulmonary (TAPVC) vital statistics (Bharati), 410 (Letter to Editor)
Reply (Van Praagh), 410
Ventricular activation and map patterns of measured and difference maps, correlations between the spread of (Toyoshima), 183
and atrial stimulation on sinus node function in man, comparison of the effects of (Bissett et al.), 459
arrhythmias, effect of coronary bypass surgery on exercise-induced (Tilkian et al.), 707
defibrillation, transchest electrical (Morgan and McElroy), 674 (Letter to Editor)
Reply (Ewy), 674
echo phenomena, characteristics and coexistence of two forms of (Akhtar et al.), 174
fibrillation induced by a unipolar implanted pacemaker (cathodal stimulation) (Seipel, Bub, and Loogen), 810 (Annot.)
myxoma, right complication of (Zager), 673 (Letter to Editor)
Reply (Snyder), 673
the phonocardiogram in (Levisman), 673 (Letter to Editor)
Reply (Snyder), 673
performance during ejection (Harrison and Smith), 813 (Letter to Editor)
Reply (Stein and Sabbah), 814
left, in chronic obstructive pulmonary disease, effect of dextran loading on (Matthay, Ellis, and Steele), 730
septal defect and mitral insufficiency after myocardial infarction, simultaneous occurrence of (Gowda, Loh, and Roberts), 234
solitary aortic trunk, and ductal origins of pulmonary arteries (Stone et al.), 506
structures, left, flutter of, in patients with aortic regurgitation, with special reference to patients with associated mitral stenosis (D'Cruz et al.), 684
vulnerability during coronary artery occlusion and release, differing mechanisms for (Corbalan, Verrier, and Lown), 223
wall thickness and volume, effects of simulated changes in: computer simulation of the precordial QRS complex (Salu and Marcus), 758
Venture research, of (Burch), 681
Vessel disease, small, intramyocardial, in chronic alcoholism (Factor), 561

Viral coronary arteritis and myocardial infarction (Burch and Shewey), 11
Viscoelastic properties of the myocardium, effect of acute hypoxia on the (Little), 609
Viscoreceptors (viscosity-receptors) as the cause of hypertension, malfunction of (Dintenfass), 260 (Annot.)
Viscosity, blood, effects of increased on pulmonary vascular resistance (Nihill, McNamara, and Vick), 65
-receptors (Viscoreceptors) as the cause of hypertension, malfunction of (Dintenfass), 260 (Annot.)
Vulnerability, ventricular, during coronary artery occlusion and release, differing mechanisms for (Corbalan, Verrier, and Lown), 223

W

Wall thickness and volume, ventricular, effects of simulated changes in: computer simulation of the precordial QRS complex (Salu and Marcus), 758
Wall—continued
volume and thickness, ventricular, effects of simulated changes in: computer simulation of the precordial QRS complex (Salu and Marcus), 758
Wave, P, of electrocardiogram, comparison of left atrial size and pulmonary capillary pressure with (Rubler, Shah, and Moallem), 73
slope of the brachial arterial pulse, effects of treadmill exercise on timing of the heart and arterial sounds, and (Inagaki, Wassermil, and Rodbard), 283
Water, lung, and hypoxemia in acute myocardial infarction (Biddle et al.), 692
What does the doctor really mean when he says "Hmmm"? (Sacks), 815 (Letter to Editor)
Wire suture, sternotomy, spontaneous cardiac tamponade due to (Mimbs and Weiss), 630
Women taking oral contraceptives, blood pressure in (Weir), 119 (Annot.)
Work-up, of the cardiac (Burch), 540 (Annot.)
